

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold, distributed or otherwise made available to, and should not be offered, sold, distributed or otherwise made available to, any retail investor in the United Kingdom. For these purposes, a "**retail investor**" means a person who is neither: (i) a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); nor (ii) a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024 (the "**POATRs**"). Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (the "**DISC**") for offering, selling or distributing the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering, selling or distributing the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

PROHIBITION OF SALES TO SWISS RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in Switzerland. For these purposes a "**retail investor**" means a person who is not a professional or institutional client, as defined in article 4 para. 3, 4 and 5 and article 5 para. 1 and 2 of the Swiss Federal Act on Financial Services of 15 June 2018, as amended ("**FinSA**"). Consequently, no key information document required by FinSA for offering or selling the Securities or otherwise making them available to retail investors in Switzerland has been prepared and therefore, offering or selling the Securities or making them available to retail investors in Switzerland may be unlawful under FinSA.

None of the Securities constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**") and are neither subject to the authorisation nor the supervision by the Swiss Financial Market Supervisory Authority FINMA ("**FINMA**") and investors do not benefit from the specific investor protection provided under the CISA.

Neither the Base Prospectus nor these Final Terms or any other offering or marketing material relating to the Securities constitute a prospectus pursuant to the FinSA, and such documents may not be publicly distributed or otherwise made publicly available in Switzerland, unless the requirements of FinSA for such public distribution are complied with.

The Securities documented in these Final Terms are not being offered, sold or advertised, directly or indirectly, in Switzerland to retail clients (*Privatkundinnen und-kunden*) within the meaning of FinSA ("**Retail Clients**"). Neither these Final Terms nor any offering materials relating to the Securities may be available to Retail Clients in or from Switzerland. The offering of the Securities directly or indirectly, in Switzerland is only made by way of private placement by addressing the Securities (a) solely at investors classified as professional clients (*professionelle Kunden*) or institutional clients (*institutionelle Kunden*) within the meaning of FinSA ("**Professional or Institutional Clients**"), (b) at fewer than 500 Retail Clients, and/or (c) at investors acquiring securities to the value of at least CHF 100,000.

The Securities and, as applicable, the Entitlements have not been and will not be, at any time, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States. The Securities may not at any time be offered or sold within the United States or to, or for the account or benefit of any person who is (a) a U.S. person (as defined in Regulation S under the Securities Act ("**Regulation S**")) or (b) not a Non-United States person (as defined in Rule 4.7 under the U.S. Commodity Exchange Act of 1936, but excluding for purposes of subsection (D) thereof, the exception to the extent that it would apply to persons who are not Non-United States persons) (together, "**U.S. persons**"). The Securities are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S. What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. The factors set out below should not be regarded as a complete and comprehensive statement of all the potential risks and uncertainties which the Barclays Bank Group faces. For example, certain other factors beyond the Barclays Bank Group's control, including escalation of global conflicts, acts of terrorism, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (ii) the impact of interest rate changes on the Barclays Bank Group's profitability; (iii) the competitive environments of the banking and financial services industry; (iv) the regulatory change agenda and impact on business model; (v) change delivery and execution risks; (vi) M&A and strategic initiatives; (vii) card partnerships and (viii) evolving landscape with respect to artificial intelligence (including generative and agentic AI) and machine learning technologies.
- **Climate risk:** Climate risk is the risk of financial losses arising from climate change, through physical risks and risks associated with transitioning to a lower carbon economy.
- **Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, including sovereigns, to fully honour their obligations to the Group. The Group is subject to risks arising from changes in credit quality and recovery rates for loans and advances due from borrowers and counterparties. Market risk is the risk of loss arising from potential adverse changes in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements under normal operating environments and stressed conditions; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the potential for adverse consequences from decisions based on incorrect or misused model outputs and reports.

Compliance, financial crime risk, reputation, legal risks and legal, competition and regulatory matters: Compliance risk is the risk of poor outcomes for, or harm to, customers, clients and markets, arising from the delivery of the Barclays Bank Group's products and services (conduct

risk) and the risk to the Barclays Bank Group, its clients, customers or markets from a failure to comply with the laws, rules and regulations applicable to the Barclays Bank Group, as well as from divergence between jurisdictions. Financial crime risk is the risk that the Barclays Bank Group and its associated persons (employees or third parties) commit or facilitate financial crime, and/or the Barclays Bank Group's products and services are used to facilitate financial crime. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and/or competence. The Barclays Bank Group conducts diverse activities in a highly regulated global market which exposes it and its employees to legal risk arising from (i) the multitude of laws, rules and regulations that apply to the activities it undertakes, which are highly dynamic, may vary between jurisdictions and/or conflict (particularly in relation to issues perceived as politically sensitive, such as policies and initiatives around diversity, equity and inclusion or sustainability), and may be unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of complaints, investigation or enforcement action, loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet applicable laws, rules, regulations or contractual requirements or to assert or defend their intellectual property rights. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

The issue price is 105.00% ("**Issue Price**") of the Specified Denomination.

The issue date is 24 September 2026 (the "**Issue Date**"). Subject to early termination, the Securities are scheduled to redeem on 24 March 2032 (the "**Scheduled Settlement Date**").

Rights attached to the Securities

Potential return: The Securities will give each holder of Securities the right to receive potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities. The potential return will be in the form of: a Final Cash Settlement Amount, provided that if the Securities are early terminated, the potential return may be in the form of an Early Cash Settlement Amount instead.

Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 calendar days), or the Issuer is subject to a winding-up order, then the Securities will become immediately due and payable, upon notice being given by the holder.

Limitations on rights

Early redemption following certain disruption events or due to unlawfulness or impracticability: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, or if it determines that that an unlawfulness or impracticability event has occurred. In such case, investors will receive an "**Early Cash Settlement Amount**" equal to the fair market value of the Securities prior to their redemption.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).
- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, to postpone or obtain alternative valuation of the Underlying Asset(s) to postpone scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

Description of the calculation of potential return on the Securities

Underlying Assets: The return on and value of the Securities is dependent on the performance of the following Underlying Assets:

Underlying Assets _(Final Settlement)	Type	Weight	Initial Price _(Settlement)	Averaging-in Dates
OMX STOCKHOLM 30 INDEX	Index	1/4	The arithmetic average of the closing level of such Underlying Asset on each of the Averaging-in Dates as determined by the Determination Agent.	4 September 2026, 5 October 2026, 4 November 2026 and 4 December 2026
OBX Price Index	Index	1/4	The arithmetic average of the closing level of such Underlying Asset on each of the Averaging-in Dates as determined by the Determination Agent.	4 September 2026, 5 October 2026, 4 November 2026 and 4 December 2026
OMX Helsinki 25 Index	Index	1/4	The arithmetic average of the closing level of such Underlying Asset on each of the Averaging-in Dates as determined by the Determination Agent.	4 September 2026, 5 October 2026, 4 November 2026 and 4 December 2026
OMX Copenhagen 25 Index	Index	1/4	The arithmetic average of the closing level of such Underlying Asset on each of the Averaging-in Dates as determined by the Determination Agent.	4 September 2026, 5 October 2026, 4 November 2026 and 4 December 2026

For the purposes of determining the Final Cash Settlement Amount, Underlying Assets shall mean the Underlying Assets_(Final Settlement).

Calculation Amount: Calculations in respect of amounts payable under the Securities are made by reference to the "Calculation Amount", being NOK 10,000 per Security.

Indicative amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or indicative amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

Determination Agent: Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

A – Final Settlement

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount.

The Scheduled Settlement Date may be postponed following the postponement of the Final Averaging-out Date due to a disruption event.

The "Final Cash Settlement Amount" is calculated as follows as the sum of:

- (i) the Protection Level (being 100.00%) multiplied by the Calculation Amount;

PLUS

- (ii) if:
- (a) the Final Performance is greater than or equal to the Upper Strike Percentage (being 100.00%), an amount equal to the product of the Calculation Amount and the greater of (I) the Floor (being 0.00%) and (II) the Participation_(Settlement) (being, indicatively, 140.00%, provided the Participation_(Settlement) will not be less than 110.00%) multiplied by the amount equal to the Final Performance *minus* the Upper Strike Percentage; or
- (b) otherwise, zero.

Where:

"Averaging-out Dates" means each of the dates specified in "Final Valuation Price"

"Final Averaging-out Date" means 4 March 2032

"Final Performance" means the sum of each Weighted Final Asset Performance.

"Final Valuation Date" means 4 March 2032.

"Final Valuation Price" means, in respect of an Underlying Asset, the arithmetic average of the closing level of an Underlying Asset in respect of each of 4 March 2031, 4 April 2031, 6 May 2031, 4 June 2031, 4 July 2031, 4 August 2031, 4 September 2031, 6 October 2031, 4 November 2031, 4 December 2031, 5 January 2032, 4 February 2032 and 4 March 2032.

"Weighted Final Asset Performance" means, in respect of an Underlying Asset and the Final Valuation Date, the Weight of such Underlying Asset multiplied by the Final Valuation Price in respect of such Underlying Asset and divided by the Initial Price_(Settlement) of such Underlying Asset.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of NASDAQ Stockholm.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** Investors are exposed to the credit risk of Barclays Bank PLC. As the Securities do not constitute a deposit and are not insured or guaranteed by any government or agency or under the UK Government credit guarantee scheme, all payments or deliveries to be made by Barclays Bank PLC as Issuer under the Securities are subject to its financial position and its ability to meet its obligations. The Securities constitute unsubordinated and unsecured obligations of the Issuer and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the Issuer. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption. The Issuer may withdraw the public offer at any time. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.
- **You are subject to risks associated with the determination of amount payable under the Securities:**

The Final Cash Settlement Amount is based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities). This means you may not benefit from any movement in level of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance as at the final valuation date.

The amount payable on your Securities will be calculated based on an initial price and final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified averaging dates, rather than on one initial valuation date or final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically changes on one or more of the averaging dates, the amount payable on your Securities may be significantly less than it would have been if the amount payable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.

The Securities reference a basket of Underlying Assets, each of which demonstrates unique risk characteristics. If the Underlying Assets are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction. If the performance of a basket gives a greater 'weight' to a basket constituent as compared to other basket constituents, the basket performance will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent. The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.
- **Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the price of the Underlying Assets, substituting the Underlying Assets, and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the

Securities. If no remedial action can be taken, or it is determined that an unlawfulness or impracticability event has occurred, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.

- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. Equity indices may comprise index components of different types of asset classes. Each type of asset class may have a different set of valuation methodology and extraordinary events that differ from the other types of components within the index methodology and, in certain cases, the determination agent may require to determine the price, value, level or other relevant measures of such component by adopting a valuation methodology and making reference to a price source it deems appropriate or using the other applicable fallback valuation methodologies. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.
- **Certain specific information in relation to the Securities is not known at the beginning of an offer period:** The terms and conditions of your Securities only provide an indicative amount. The actual amounts will be determined based on market conditions by the Issuer on or around the end of the offer period. There is a risk that the indicative amounts will not be same as the actual amount, in which case, the return on your Securities may be materially different from the expected return based on the indicative amount.
- **The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended):** The Underlying Asset(s) are benchmarks for the purposes of the current EU Benchmarks Regulation. An Underlying Asset that is in-scope of the EU Benchmarks Regulation may not be used in certain ways by an EU supervised entity if its administrator does not obtain or maintain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions or does not obtain or maintain "recognition" or "endorsement"). If this happens, the Underlying Asset will be replaced by a pre-nominated substitute Underlying Asset, and the economic characters of the Securities may change in a materially negative manner. Further, the methodology or other terms of an Underlying Asset could be changed in order to comply with the requirements of the EU Benchmarks Regulation, and such changes could reduce or increase the rate or affect the volatility of the published rate of such Underlying Asset, which may in turn lead to adjustments to the terms of the Securities or early redemption.
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.

Hva er de viktigste risikoene som er spesifikke for Utsteder?

Barclays Bank Konsernet har identifisert et bredt spekter av risikoer som virksomheten er eksponert for. Vesentlige risikoer er risikoer som toppledelsen er særlig oppmerksom på, og som kan føre til at Barclays Bank Konsernets strategi, driftsresultater, finansielle stilling og/eller utsikter avviker vesentlig fra forventningene. Fremvoksende risikoer er de som har ukjente komponenter, hvis virkninger kan utkrystallisere seg over en lengre tidsperiode. Risikofaktorene beskrevet nedenfor bør ikke betraktes som en komplett og fullstendig beskrivelse av alle potensielle risikoer og usikkerhet som Barclays Bank står ovenfor og/eller kan bli utsatt for. Eksempelvis kan visse andre faktorer utenfor Barclays Bank Konsernets kontroll, herunder økende globale konflikter, terrorhandlinger, naturkatastrofer, pandemier og lignende hendelser, selv om disse ikke er beskrevet nedenfor, ha lignende innvirkning på Barclays Bank Konsernet.

- **Vesentlige eksisterende og fremvoksende risikoer som potensielt påvirker mer enn én hovedrisiko:** I tillegg til vesentlige og fremvoksende risikoer som påvirker hovedrisikoene angitt nedenfor, er det også vesentlige eksisterende og fremvoksende risikoer som potensielt påvirker mer enn én av disse hovedrisikoene. Disse risikoene er (i) potensielt ugunstige globale og lokale økonomiske og markedsmessige forhold, samt geopolitisk utvikling, (ii) virkningen av rentendringer på Barclays Bank Konsernets lønnsomhet, (iii) konkurransesituasjonen i bank- og finansnæringen, (iv) den regulatoriske endringsagendaen og dens innvirkning på forretningsmodellen, (v) endringer i leverings- og gjennomføringsrisiko, (vi) fusjoner, oppkjøp og strategiske initiativer, (vii) kortpartnerskap, og (viii) det utviklende landskapet med hensyn til kunstig intelligens (inkludert generativ og agentbasert KI) og maskinlæringsteknologier.
- **Klimarisiko:** Klimarisiko er risikoen for finansielle tap som oppstår som følge av klimaendringer, gjennom fysiske risikoer og risikoer knyttet til overgangen til en økonomi med lavere karbonavtrykk.
- **Kreditt- og markedsrisiko:** Kredittrisiko er risikoen for tap for Barclays Bank Konsernet som følge av at klienter, kunder eller motparter (inkludert suverene stater) ikke fullt ut oppfyller sine forpliktelser overfor Konsernet. Konsernet er utsatt for risiko som følge av endringer i kredittkvaliteten og inndrivelsesgraden for lån og forskudd fra låntakere og motparter. Markedsrisiko er risikoen for tap som følge av potensielle negative endringer i verdien av Barclays Bank Konsernets eiendeler og gjeld på grunn av svingninger i markedsvARIABLE.
- **Likviditets- og kapitalrisiko og risikoen for at Utsteder og Barclays Bank Konsernet underlegges betydelige krisehåndteringsbeføyelser:** De tre hovedtypene likviditets- og kapitalrisiko Barclays Bank Konsernet står overfor er (1) likviditetsrisiko – risikoen for at Barclays Bank Konsernet ikke er i stand til å oppfylle sine kontraktsmessige eller betingede forpliktelser, eller at den ikke har tilstrekkelig stabil finansiering og likviditet til å oppbevare sine eiendeler, som også kan påvirkes av endringer i kredittvurderingen, (2) kapitalrisiko – risikoen for at Barclays Bank Konsernets kapitalnivå og/eller kapitalsammensetning er utilstrekkelig for å støtte den normale forretningsvirksomheten og oppfylle regulatoriske kapitalkrav under normale driftsforhold og stressede forhold, og (3) renterisiko i bankvirksomheten – risikoen for at Barclays Bank Konsernet er eksponert for kapital- eller inntektssvingninger på grunn av manglende samsvar mellom renteeksponeringen i dens (ikke-handlede) eiendeler og gjeld. Det britiske krisehåndteringsregelverket i Banking Act av 2009, gir Bank of England (eller, under visse omstendigheter HM Treasury), i samråd med United Kingdom Prudential Regulation Authority, UK Financial Conduct Authority og HM Treasury, betydelige fullmakter til å iverksette ulike krisehåndterings tiltak og stabiliseringsalternativer ovenfor en britisk bank eller et britisk verdipapirforetak og enkelte av slike banker/foretaks datterselskaper (som inkluderer utsteder og Barclays Bank Konsernet). Krisehåndterings tiltakene og stabiliseringsalternativer som kan benyttes inkluderer, men er ikke begrenset til, intern oppkapitaliseringsfullmakt ("UK Bail-in Power"), som gir Bank of England (eller enhver etterfølger, erstatning og/eller annen myndighet i Storbritannia som er gitt en slik fullmakt) (samlet "Relevante Krisehåndteringsmyndigheter") mulighet til å nedskrive visse krav fra usikrede kreditorer i en sviktende relevant enhet (og slik nedskrivning kan føre til at slike krav reduseres til null) og til å

konvertere visse usikrede gjeldskrav til egenkapital eller andre eierinstrumenter) under omstendigheter der Relevant Krisehåndteringsmyndighet finner at de relevante krisehåndteringsbetingelsene er oppfylt.

- **Operasjonell risiko og modellrisiko:** Operasjonell risiko er risikoen for tap for Barclays Bank Konsernet på grunn av utilstrekkelige eller sviktende prosesser eller systemer, menneskelige faktorer eller eksterne hendelser hvis underliggende årsak ikke er kreditt- eller markedsrisiko. Modellrisiko er potensialet for negative konsekvenser av beslutninger basert på feilaktige eller misbrukte modellresultater og -rapporter.
- **Etterlevelse-, risiko for økonomisk kriminalitet, omdømme- og juridisk risiko, samt juridiske, konkurransemessige og regulatoriske forhold:** Etterlevelsesrisiko er risikoen for skade på kunder, klienter, markedsintegritet, effektiv konkurranse som følge av leveranse av Barclays Bank Konsernets produkter og tjenester (atferdsrisiko), samt risikoen for at Barclays Bank Konsernet, dets klienter, kunder eller markeder skades som følge av manglende etterlevelse av lover, regler og forskrifter som gjelder for Barclays Bank Konsernet, samt avvik mellom ulike jurisdiksjoner. Risikoen for økonomisk kriminalitet er risikoen for at Barclays Bank Konsernet og dens tilknyttede personer (ansatte eller tredjeparter) begår eller tilrettelegger for økonomisk kriminalitet, og/eller at Barclays Bank Konsernets produkter og/eller tjenester brukes til å tilrettelegge for økonomisk kriminalitet. Omdømmerisiko er risikoen for at en handling, transaksjon, investering, hendelse, beslutning eller forretningsforbindelse vil redusere tilliten til Barclays Bank Konsernet integritet og/eller kompetanse. Barclays Bank Konsernet driver mangfoldig virksomhet i et høyst regulert globalt marked som utsetter Barclays Bank Konsernet for juridisk risiko som følge av (i) de mange lovene, reglene og forskriftene som gjelder for virksomhetene det driver, som er svært dynamiske, kan variere fra jurisdiksjon til jurisdiksjon og kan være uklare i sin anvendelse på bestemte forhold (især knyttet til spørsmål som oppfattes som politisk sensitive, slik som retningslinjer og initiativer rundt mangfold, likestilling, inkludering eller bærekraft), særlig innen nye og fremvoksende områder, og (ii) Barclays Bank Konsernet virksomhetens og forretningspraksis sin diversifiserte og dynamiske karakter. I hvert tilfelle utsetter dette Barclays Bank Konsernet og dets ansatte for risiko for klager, etterforskning, håndhevingstiltak, tap eller ileggelse av sanksjoner, erstatningsansvar eller bøter som følge av at medlemmer av Barclays Bank Konsernet ikke oppfyller lover, regler, forskrifter eller kontraktsfestede krav, eller ikke hevder eller forsvarer sine immaterielle rettigheter. Juridisk risiko kan oppstå i forbindelse med hvilke som helst av risikofaktorene oppsummert ovenfor.

Verdipapirenes status

Verdipapirene er direkte, ikke-ansvarlige og usikrede forpliktelser for Utsteder og har lik innbyrdes prioritet.

Beskrivelse av begrensninger i Verdipapirenes frie omsettelighet

Verdipapirene tilbys og selges utenfor USA til ikke-amerikanske personer i henhold til Regulation S under den amerikanske Securities Act og må etterleve overdragelsesrestriksjoner med hensyn til USA. Verdipapirer som inngår i et clearingsystem vil bli overdratt i henhold til dette clearingsystemets regler, rutiner og bestemmelser. Med disse forbehold vil Verdipapirene være fritt omsettelige.

Hvor vil Verdipapirene omsettes?

Søknad forventes å bli inngitt av Utsteder (eller på vegne av Utsteder) om notering av Verdipapirene på det regulerte markedet NASDAQ Stockholm.

Hva er de viktigste risikoene som er spesifikke for Verdipapirene?

Verdipapirene er utsatt for følgende viktige risikoer:

- **Du kan tape deler av eller hele investeringen i Verdipapirene:** Investorer er eksponert for kredittrisikoen forbundet med Barclays Bank PLC. Siden Verdipapirene ikke utgjør noe innskudd og ikke er forsikret eller garantert av noen myndighet eller noe organ eller under britiske myndigheters kredittgarantiordning, er alle betalinger eller leveranser som skal foretas av Barclays Bank PLC som Utsteder under Verdipapirene betinget av dens økonomiske stilling og dens evne til å oppfylle sine forpliktelser. Verdipapirene utgjør ikke-ansvarlige og usikrede forpliktelser for Utsteder og er likestilt med hverandre og alle andre nåværende og fremtidige ikke-ansvarlige og usikrede forpliktelser for Utsteder. Du kan også tape deler av eller hele investeringen dersom: (a) du selger Verdipapirene dine før deres planlagte forfall eller utløp, (b) Verdipapirene dine innløses tidlig under visse ekstraordinære omstendigheter, eller (c) Verdipapirenes vilkår justeres slik at beløpet som skal betales eller eiendelene som kan leveres til deg er mindre enn din opprinnelige investering.
- **Det er risikoer forbundet med Verdipapirenes verdsattelse, likviditet og tilbud:** Dine Verdipapirers markedsverdi kan være lavere enn emisjonskursen siden emisjonskursen kan ta hensyn til Utsteders og/eller distributørens fortjenestemargin og kostnader i tillegg til Verdipapirenes markedsverdi. Dine Verdipapirers markedsverdi kan påvirkes av Underliggende Eiendel(er)s volatilitet, nivå, verdi eller kurs på det aktuelle tidspunktet, renteendringer, Utsteders finansielle stilling og kredittvurdering, tilbud og etterspørsel etter Verdipapirene, gjenstående tid til Verdipapirenes forfall eller utløp, samt andre faktorer. Kursen, om noen, som du vil kunne selge Verdipapirene til før forfall kan være vesentlig lavere enn beløpet du opprinnelig investerte. Det er ikke nødvendigvis noe aktivt omsetningsmarked for Verdipapirene, og Utsteder er ikke nødvendigvis forpliktet til å stille kurser eller kjøpe tilbake Verdipapirene før innløsning. Utsteder kan når som helst trekke tilbake offentlig tilbud. I slike tilfeller vil du, dersom du allerede har betalt eller levert tegningsbeløp for de relevante Verdipapirene, ha rett til tilbakebetaling av slike beløp, men vil ikke motta noen godtgjørelse som måtte ha påløpt i perioden mellom betaling eller levering av tegningsbeløp og tilbakebetaling for Verdipapirene.

Du er gjenstand for risikoer knyttet til fastsettelsen av beløpet som skal betales i henhold til Verdipapirene:

Endelig Kontantoppgjørsbeløp er kun basert på Underliggende Eiendel(er)s resultat på Endelig Verdsattelsesdato (i stedet for flere perioder i løpet av Verdipapirenes løpetid). Dette betyr at du ikke kan dra nytte av eventuelle bevegelser i Underliggende Eiendel(er)s nivå i løpet av Verdipapirenes løpetid som ikke opprettholdes i endelig resultat på endelig verdsattelsesdato.

Beløpet som skal betales på Verdipapirene dine vil bli beregnet basert på en inngangskurs og sluttkurs som er et aritmetisk gjennomsnitt av gjeldende nivåer, kurser eller andre gjeldende verdier for Underliggende Eiendel(er) på angitte gjennomsnittsberegningsdatoer, i stedet for på én opprinnelig verdsattelsesdato eller endelig verdsattelsesdato. Dette betyr at hvis gjeldende Underliggende Eiendel(er)s nivå, kurs eller verdi endres dramatisk på en eller flere av gjennomsnittsberegningsdatoene, kan beløp som skal betales på Verdipapirene dine være betydelig lavere enn det/den ville ha vært hvis beløp som skal betales hadde blitt beregnet med henvisning til en enkelt verdi på en opprinnelig verdsattelsesdato eller endelig verdsattelsesdato.

Beregningen av beløpet som skal betales avhenger av at Underliggende Eiendel(er)s nivå, verdi eller kurs når eller krysser en "grense" i løpet av en angitt periode eller angitte datoer i Verdipapirenes løpetid. Dette betyr at du kan motta mindre (eller, i visse tilfeller, mer) dersom Underliggende Eiendel(er)s nivå, verdi eller kurs henholdsvis krysser eller når en grense, enn hvis den kommer nær grensen, men ikke henholdsvis når eller krysser denne, og i visse tilfeller vil du ikke nødvendigvis motta noen rente- eller kupongrentebetalinger og/eller kan du tape deler av eller hele investeringen.

Verdipapirene henviser til en kurv av Underliggende Eiendeler som hver for seg har unike risikoegenskaper. Hvis Underliggende Eiendeler er korrelert, kan det forventes at resultatene til Underliggende Eiendel(er) i kurven vil bevege seg i samme retning. Hvis en kurvs resultater gir en større "vekt" til en kurvkomponent enn til andre kurvkomponenter, vil kurvens resultater bli mer påvirket av endringer i verdien av denne bestemte kurvkomponenten enn en kurv som gir hver kurvkomponent lik vekt. Resultatene til kurvkomponentene kan modereres eller utlignes av hverandre. Dette betyr at selv om en eller flere komponenter har et positivt resultat, kan resultatet for kurven som helhet være negativt dersom resultatet for de andre komponentene er negativt i større grad.

- **Verdipapirene dine kan bli gjenstand for justeringer og tidlig innløsning:** I henhold til Verdipapirenes vilkår kan Fastsettelsesagent eller Utsteder, etter at det har oppstått visse forstyrrelseshendelser eller ekstraordinære hendelser vedrørende Utsteder, dens sikringsordninger, Underliggende Eiendel(er), beskatning eller Verdipapirenes relevante valuta, iverksette en rekke avhjelpende tiltak, herunder estimering av Underliggende Eiendelers kurs, utskifting av Underliggende Eiendeler og justering av Verdipapirenes vilkår. Ethvert slikt avhjelpende tiltak kan endre Verdipapirenes økonomiske egenskaper og ha en vesentlig negativ virkning på Verdipapirenes verdi og avkastning. Hvis ingen avhjelpende tiltak kan iverksettes, eller hvis det fastslås at en ulovlig eller umuliggjørende hendelse har inntruffet, kan Utsteder innløse Verdipapirene for tidlig ved å betale et Tidlig Kontantoppgjørsbeløp. Dersom tidlig innløsning finner sted kan du tape deler av eller hele investeringen fordi Tidlig Kontantoppgjørsbeløp kan være lavere enn kursen du kjøpte Verdipapirene til, eller til og med være null. Du vil også tape muligheten til å ta del i eventuelle påfølgende positive resultater i Underliggende Eiendel(er) og vil ikke kunne realisere eventuelle økninger i Verdipapirenes verdi. Du vil ikke nødvendigvis kunne reinvestere provenyet fra en investering til en sammenlignbar avkastning og/eller med en sammenlignbar rente, med et tilsvarende risikonivå.
- **Oppgjør er underlagt betingelser og kan under visse omstendigheter være umulig:** Utbetaling av beløpet som skal betales til deg vil ikke finne sted for alle oppgjørsbetingelser er oppfylt i sin helhet. Utsteder vil ikke utbetale noe ytterligere beløp til deg som følge av eventuelle forsinkelser eller utsettelse dette måtte innebære. Det kan oppstå visse oppgjørsforstyrrelseshendelser som kan begrense Utsteders evne til å foreta utbetalinger, og oppgjørsdato kan følgelig bli forsinket.
- **Visse spesifikke opplysninger om Verdipapirene er ikke kjent ved begynnelsen av en tilbudsperiode:** Verdipapirenes vilkår gir bare et veiledende beløp. Faktiske beløp vil bli fastsatt basert på markedsforholdene av Utsteder på eller rundt utgangen av tilbudsperioden. Det er en risiko for at veiledende beløp ikke vil være de samme som faktiske beløp, og i så fall kan avkastningen på Verdipapirene dine være vesentlig forskjellig fra forventet avkastning basert på veiledende beløp.
- **Risikoer knyttet til Underliggende Eiendel(er) som er aksjeindekser:** Aksjeindekser består av en syntetisk portefølje av aksjer og gir diversifiseringsmuligheter, men vil være gjenstand for risikoen for svingninger i både aksjekurser og verdien og volatiliteten til relevant aksjeindeks. Verdipapirene er knyttet til aksjeindekser, og kan som sådan ikke delta i utbytte eller andre utdelinger som betales på aksjene som inngår i slike indekser. Følgelig kan du motta en lavere avkastning på Verdipapirene enn du ville ha mottatt hvis du hadde investert direkte i disse aksjene. Indeksponsor kan legge til, slette eller erstatte komponentene i en aksjeindeks etter eget skjønn, og kan også endre metoden som brukes til å beregne nivået på en slik indeks. Aksjeindekser kan bestå av indekskomponenter fra ulike typer aktivaklasser. Hver type aktivaklasse kan ha et annet sett av verdsettelsesmetoder og ekstraordinære hendelser som skiller denne fra de andre typene komponenter innenfor indeksmetoden, og i visse tilfeller kan fastsettelsesagent fastsette en slik komponents kurs, verdi, nivå eller andre relevante mål ved å ta i bruk en verdsettelsesmetode og henvise til en kurskilde som den anser som hensiktsmessig, eller ved å bruke andre gjeldende alternative verdsettelsesmetoder. Disse hendelsene kan ha en negativ innvirkning på nivået på denne indeksen, noe som igjen kan ha en negativ innvirkning på Verdipapirenes verdi og avkastning.
- **Underliggende Eiendel(er) er "referanseverdier" som definert i EUs referanseverdiforordning (forordning (EU) 2016/1011, som endret):** I henhold til EUs referanseverdiforordning kan en Underliggende Eiendel ikke brukes på visse måter av en enhet under tilsyn i EU dersom dens administrator ikke oppnår eller opprettholder tillatelse eller registrering (eller, hvis det er en ikke-EU enhet, etter utløpet av den midlertidige bestemmelsen 31. desember 2025, ikke oppfyller eller opprettholder vilkårene for "ekvivalens" og ikke er "anerkjent" i påvente av en ekvivalensbeslutning eller ikke oppnår eller opprettholder "anerkjennelse" eller "godkjennelse"). Hvis dette skjer, vil Underliggende Eiendel bli erstattet av en forhåndsbestemt alternativ Underliggende Eiendel, og Verdipapirenes økonomiske egenskaper kan endres på en vesentlig negativ måte. Videre kan metoden eller andre vilkår for en Underliggende Eiendel bli endret for å oppfylle kravene i EUs referanseverdiforordning, og slike endringer kan redusere eller øke denne Underliggende Eiendels nivå eller påvirke volatiliteten til dens offentliggjorte nivå, noe som igjen kan føre til justeringer av Verdipapirenes vilkår eller tidlig innløsning.
- **Beskatningsrisikoer:** Nivået og grunnlaget for beskatning av Verdipapirene og eventuelle fritak fra slik beskatning vil avhenge av dine individuelle omstendigheter og kan endres når som helst i løpet av Verdipapirenes løpetid. Dette kan ha negative konsekvenser for deg, og du bør derfor rådføre deg med dine egne skatterådgivere om de skattemessige konsekvensene for deg av transaksjoner som involverer Verdipapirene.
