If the Index is no longer calculated and published by the Index Sponsor but by another person, company or institution acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) as the new Index Sponsor (the "**Successor Sponsor**"), the Redemption Amount will be determined on the basis of the Index being calculated and published by the Successor Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Sponsor.
2. If the Index is cancelled or replaced or if the Index Sponsor is replaced by another person, company or institution not acceptable to the Issuer in its reasonable discretion (*billiges Ermessen*) § 315 German Civil Code (*BGB*)), the Issuer will determine in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) another index on the basis of which the Redemption Amount will be determined (the "**Successor Index**"). The Successor Index as well as the time of its first application will be notified pursuant to § 13. Any reference made to the Index in these Terms and Conditions shall, if the context so admits then refer to the Successor Index. All related definitions shall be deemed to be amended accordingly. Furthermore, the Issuer will make all necessary adjustments to the Terms and Conditions resulting from a substitution of the respective Index.
3. If the occurrence of an Adjustment Event with respect to an Index Share has a material effect on the price of the Index, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. The Issuer shall act in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)).

As a result of such adjustments especially the Initial Price may be amended.

Such adjustment shall become effective on the date on which the occurrence of the Adjustment Event with respect to an Index Share has its effect on the price of the Index.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 13.

Any adjustment in accordance with this § 7 (A) paragraph 3 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

4. If (i) the determination of a Successor Index in accordance with § 7 (A) paragraph 2 is not possible or is unreasonable (*unzumutbar*) or (ii) if the Index Sponsor materially modifies the calculation method of the Index with effect on or after 4 September 2014, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to an Index Share, the market capitalisation or with respect to any other routine measures), then the Issuer is entitled to (a) continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level or (b) to terminate the Notes prematurely with respect to a Payment Business Day (the "**Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 13. Any termination in part shall be excluded.

The Issuer may also terminate the Notes in accordance with the above in the case of a Hedging Disruption.

5. In the case of a termination of the Notes pursuant to § 7 (A) paragraph 4, the Notes shall be redeemed on the Termination Date at the termination amount per Note (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account applicable market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Notes

(the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Noteholders not later than the fifth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Notes with the Clearing System. The rights in connection with the Notes shall expire upon the payment of the Termination Amount to the Clearing System.

#### (B) IN RELATION TO AN ETF SHARE

1. If an Extraordinary Event has a material effect on the price of the ETF Share, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of such an adjustment) optionally terminate the Notes prematurely with respect to an Exchange Business Day (the "**Termination Date**") taking into consideration the provisions set forth hereinafter with a prior notice of seven Payment Business Days in accordance with § 13. Any termination of the Notes in part shall be excluded.

Adjustments to the Terms and Conditions shall be performed by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)).

As a result of such adjustments especially the Initial Price may be amended. The adjustments may also result in the ETF Share being replaced by another ETF share or other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. If the ETF Share will be replaced, the Issuer will identify an alternative fund in substitution for the ETF Share (the "**Successor Fund**"). The Successor Fund shall be a fund which (i) is denominated in the same currency as the ETF Share, (ii) has the same or similar characteristics and features as the ETF Share and (iii) has similar investment objectives and policies to those of the ETF Share immediately prior to the occurrence of the Extraordinary Event. Any reference made to the ETF Share in these Terms and Conditions shall be deemed as a reference to the Successor Fund, all calculations and determinations made by reference to the ETF Share shall be instead made by reference to the Successor Fund, and the Issuer shall make amendments to all related terms accordingly on the basis of the Removal Value of the ETF Share.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 13.

Any adjustment in accordance with this § 7 (B) paragraph 1 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

2. If the Notes are terminated pursuant to § 7 (B) paragraph 1 or the Notes are called for redemption due to the occurrence of an Extraordinary Event or in case the Issuer is unable to identify a Successor Fund with respect to an ETF Share, as the case may be, the Notes shall be redeemed on the Termination Date at the termination amount per Note (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Notes (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Noteholders not later than the tenth Payment Business Day following the Termination Date to the Clearing System for crediting the accounts of the depositors of the Notes with the Clearing System. The rights in connection with the Notes shall expire upon the payment of the Termination Amount to the Clearing System.

3. The Issuer may also terminate the Notes according to § 7 (B) paragraph 1 in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an

individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Fund Company as a consequence of a conversion or otherwise, all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

## § 10 PAYING AGENT

### Paragraph 1:

1. Skandinaviska Enskilda Banken AB (publ), a banking institution incorporated under the laws of Sweden, whose corporate seat and registered office is at Kungsträdgårdsgatan 8, SE-106 40 Stockholm, Sweden, acting through its division SEB Merchant Banking, Securities Services, shall be the paying agent (the "**Paying Agent**").

## § 11 TERMINATION

1. Each Noteholder is entitled to declare his Notes due and to require the redemption of his Notes pursuant to paragraph 2 below, if:
  - (a) the Issuer is in default for more than 30 days in the payment under these Terms and Conditions, or
  - (b) the Issuer violates any other obligation under these Terms and Conditions, and such violation continues for 60 days after receipt of written notice thereof from the respective Noteholder, or
  - (c) the Issuer is wound up or dissolved whether by a resolution of the shareholders or otherwise (except in connection with a merger or reorganisation in such a way that all of the assets and liabilities of the Issuer pass to another legal person in universal succession by operation of law), or
  - (d) the Issuer ceases its payments and this continues for 60 days, or admits to be unable to pay its debts, or
  - (e) any insolvency proceedings are instituted against the Issuer which shall not have been dismissed or stayed within 60 days after their institution or the Issuer applies for the institution of such proceedings, or offers or makes an arrangement for the benefit of its creditors, or
  - (f) any of the events set forth in sub-paragraphs (c) – (e) above occurs in respect of the Guarantor (§ 12).

The right to declare Notes due shall terminate if the circumstances giving rise to it have been remedied before such right is exercised.

2. The right to declare Notes due pursuant to § 11 paragraph 1 shall be exercised by a Noteholder by delivering or sending by registered mail to the Paying Agent a written notice which shall state the principal amount of the Notes called for redemption and shall enclose evidence of ownership reasonably satisfactory to the Paying Agent. Following such declaration the Notes shall be redeemed at the early redemption amount (the "**Early Redemption Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) as the fair market value of the Notes at the date as determined by the Issuer. Such date and the Early Redemption Amount shall be notified directly to the relevant Noteholder. The rights arising from the Notes will terminate upon the payment of the Early Redemption Amount.

**§ 12  
SUBSTITUTION OF THE ISSUER**

**Paragraph 2:**

2. No such assumption shall be permitted unless
- (a) the New Issuer has agreed to assume all obligations of the Issuer under the Notes pursuant to these Terms and Conditions;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Noteholder against any tax, duty, assessment or governmental charge imposed on such Noteholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Noteholders compliance by the New Issuer with all obligations under the Notes pursuant to these Terms and Conditions;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised;
  - (e) Euroclear Sweden has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).

## SECTION D – RISKS

The purchase of Notes is associated with certain risks. The Issuer expressly points out that the description of the risks associated with an investment in the Notes describes only the major risks which were known to the Issuer at the date of the Base Prospectus.

Element	Description of Element	Disclosure requirement
D.2	<b>Key risks specific to the issuer</b>	The Notes entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that Commerzbank becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount or any other payments to be made under the Notes.

Furthermore, Commerzbank is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:

### Global Financial Market Crisis and Sovereign Debt Crisis

The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.

### Macroeconomic Environment

The macroeconomic environment prevailing over the past few years continues to negatively affect the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of a possible renewed economic downturn.

### Counterparty Default Risk

The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "cluster" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and these defaults may not be sufficiently covered by collateral or by write-downs and provisions

previously taken.

#### Market Price Risks

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

#### Strategic Risks

There is a risk that the Group may not be able to implement its strategic agenda or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

#### Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.

#### Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations. Currently, the liquidity supply of banks and other players in the financial markets is strongly dependent on expansive measures of the central banks.

#### Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or violate compliance-relevant regulations in connection with the conduct of business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.

#### Risks from Equity Participations

COMMERZBANK is exposed to particular risks in respect of the value and management of equity investments in listed and unlisted companies. It is possible that the goodwill reported in the Group's consolidated financial statements will have to be fully or partly written down as a result of impairment tests.

#### Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of proprietary

trading from the deposit-taking business, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

#### Legal Risks

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

#### **D.6 Key information on the key risks that are specific to the securities**

##### No secondary market immediately prior to final maturity

The market maker and/or the exchange will cease trading in the Notes shortly before their scheduled Maturity Date. However, between the last trading day and the valuation date, the price of the Underlying(s) and/or the exchange rate, both of which may be relevant for the Notes may still change and any kind of threshold or price, as the case may be, which may be relevant for the payments under the Notes could be reached, exceeded or breached in another way for the first time. This may be to the investor's disadvantage.

##### No collateralization

The Notes constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Notes. Under these circumstances, a total loss of the investor's capital might be possible.

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Notes cannot or only partially be done. Under these circumstances, a total loss of the investor's capital might be possible.

##### Foreign Account Tax Compliance withholding may affect payments on Notes

The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold at a rate of up to

30% on payments made after 31 December 2016 in respect of any Notes which are issued or materially modified after 31 December 2013, pursuant to Sections 1471 to 1474 of the U.S. Internal Revenue Code, commonly referred to as "**FATCA**" (Foreign Account Tax Compliance Act). A withholding obligation may also exist – irrespective of the date of issuance – if the Notes are to be treated as equity instruments according to U.S. tax law. The FATCA regulations outlined above are not yet final. **Investors in the Notes should therefore be aware of the fact that payments under the Notes may, under certain circumstances, be subject to U.S. withholding, which may lower the economic result of the Note.**

#### Impact of a downgrading of the credit rating

The value of the Notes could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Notes.

#### Termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments with regard to the Terms and Conditions or to terminate and redeem the Notes prematurely if certain conditions are met. This may have a negative effect on the value of the Notes as well as the Termination Amount. If the Notes are terminated, the amount payable to the holders of the Notes in the event of the termination of the Notes may be lower than the amount the holders of the Notes would have received without such termination.

#### Market disruption event

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Notes and that might affect the value of the Notes. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

#### Substitution of the Issuer

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Notes, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Notes in its place. In that case, the holder of the Notes will generally also assume the insolvency risk with regard to the new Issuer.

#### Risk factors relating to the Underlying

The Notes depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Notes.

Risk relating to an automatic early redemption

Under certain circumstances as set forth in the relevant Final Terms, the Notes may be redeemed early if certain conditions are met, which may adversely affect the economics of the Notes for the investor.

Risk at maturity:

The redemption of the Notes on the Maturity Date depends on the performance of the Underlying or Underlyings, as the case may be. If the Notes have an FX Exposure, the Redemption Amount of the Notes does not only depend on the performance of the Underlying or Underlyings, as the case may be, but also on the development of the Conversion Rate.

A Redemption Amount will only be paid in the case that the Underlying Performance of the Worst Performing Underlying is greater than 0 (zero). If the Underlying Performance of the Worst Performing Underlying is 0 (zero), there will be no Redemption Amount payable at all. **In such case, the investor will lose the total amount of the invested capital (including transaction costs).**

Risks if the investor intends to sell or must sell the Notes during their term:*Market value risk:*

The achievable sale price prior to the Maturity Date could be significantly lower than the purchase price paid by the investor.

The market value of the Notes mainly depends on the performance of the Underlying(s). In particular, the following factors may have an adverse effect on the market price of the Notes:

- Changes in the expected intensity of the fluctuation of the Underlying(s) (volatility)
- Remaining term of the Notes
- Interest rate development
- Developments of the dividends of the shares comprising the Index
- Developments of any distributions of the Fund Company issuing the ETF Shares underlying the Notes

Each of these factors could have an effect on its own or reinforce or cancel each other.

*Trading risk:*

The Issuer is neither obliged to provide purchase and sale prices for the Notes on a continuous basis on (i) the exchanges on which the Notes may be listed or (ii) an over the counter (OTC) basis nor to buy back any Notes. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Notes could be temporarily limited or impossible.

**SECTION E – OFFER**

<b>Element</b>	<b>Description of Element</b>	<b>Disclosure requirement</b>
<b>E.2b</b>	<b>Reason for the offer and use of proceeds when different from making profit and/or hedging certain risks</b>	- not applicable - Profit motivation
<b>E.3</b>	<b>Description of the terms and conditions of the offer</b>	Commerzbank offers during the subscription period from 4 September 2014 until 16 October 2014 up to SEK 100,000,000 Notes at an initial issue price of 100% per Note.  The Issuer is entitled to (i) close the subscription period prematurely, (ii) extend the subscription period or (iii) cancel the offer. After expiry of the subscription period, the Notes continue to be offered by the Issuer. The offer price will be determined continuously.
<b>E.4</b>	<b>Any interest that is material to the issue/offer including conflicting interests</b>	The following conflicts of interest can arise in connection with the exercise of rights and/or obligations of the Issuer in accordance with the Terms and Conditions of the Notes (e.g. in connection with the determination or adaptation of parameters of the terms and conditions), which affect the amounts payable: <ul style="list-style-type: none"> <li>- execution of transactions in the Underlying(s)</li> <li>- issuance of additional derivative instruments with regard to the Underlying(s)</li> <li>- business relationship with the Issuer of the Underlying(s)</li> <li>- possession of material (including non-public) information about the Underlying(s)</li> <li>- acting as Market Maker</li> </ul>
<b>E.7</b>	<b>Estimated expenses charged to the investor by the issuer or the offeror</b>	The investor can usually purchase the Notes at a fixed issue price. This fixed issue price contains all cost of the Issuer relating to the issuance and the sales of the Notes (e.g. cost of distribution, structuring and hedging as well as the profit margin of Commerzbank).

## AVSNITT D – RISKER

Köpet av Obligationerna är förenat med vissa risker. Emittenten framhäver särskilt att beskrivningen av riskerna förenade med en investering i Obligationerna endast beskriver de väsentliga risker som var kända för Emittenten per dagen för Grundprospektet.

Punkt	Beskrivning av Punkt	Upplysningskrav
D.2	<b>Huvudsakliga risker som är specifika för Emittenten</b>	Obligationerna medför en emittentrisk, även kallad gäldenärsrisk eller kreditrisk, för presumtiva investerare. En emittentrisk är risken för att Commerzbank tillfälligt eller permanent blir oförmöget att fullgöra sina skyldigheter att betala ränta och/eller inlösenbeloppet eller någon annan betalning som skall göras enligt Obligationerna.

Dessutom är Commerzbank utsatt för olika risker i samband med sin affärsverksamhet. Sådana risker omfattar i synnerhet följande typer av risker:

### Globala finansmarknadskriser och statsskuldkriser:

De globala finansmarknadskriserna och statsskuldkriserna, i synnerhet i euroområdet, har haft en betydande väsentligt negativ effekt på Koncernens nettotillgångar, finansiella ställning och rörelseresultat. Det kan inte garanteras att Koncernen inte kommer att drabbas av ytterligare väsentligt negativa effekter i framtiden, i synnerhet om krisen åter skulle förvärras. Skulle krisen inom Europeiska monetära unionen eskalera ytterligare skulle det kunna innebära väsentligt negativa effekter för Koncernen, vilket, under vissa omständigheter även skulle kunna hota Koncernens existens. Koncernen innehar en betydande volym statspapper. Nedskrivningar och omvärderingar av sådana statspapper till ett lägre verkligt värde har tidigare haft väsentligt negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat i det förflutna, och kan få ytterligare negativa effekter i framtiden.

### Makroekonomisk miljö:

Den makroekonomiska miljö som rått under de senaste åren fortsätter att påverka Koncernens resultat negativt och Koncernens kraftiga beroende av det ekonomiska klimatet, i synnerhet i Tyskland, skulle kunna resultera i ytterligare avsevärt negativa effekter i det fall den ekonomiska konjunkturen skulle vända ned igen.

### Motpartsrisk:

Koncernen är exponerad för motpartsrisk (kreditrisk), bland annat beträffande stora enskilda lån och åtaganden koncentrerade till enskilda sektorer – så kallad klusterrisk – samt beträffande lån till gäldenärer som kan påverkas särskilt av statsskuldkrisen. Stängningen av fartygfinansieringsportföljen och portföljen för finansiering av kommersiella fastigheter är exponerad mot avsevärda risker i ljuset av den rådande svåra marknadsmiljön och volatiliteten i skepps- och fastighetspriser samt motpartsrisk (kreditrisken) som påverkas därav, liksom risken av betydande förändringar i värdet på skepp som utgör säkerhet samt direkt ägda fastigheter och privata och kommersiella fastigheter som utgör säkerhet. Koncernen har i sin portfölj ett stort antal nödlidande lån, och det kan hända att utebliven betalning på dessa lån inte är fullt

täckt av säkerheter eller av tidigare gjorda nedskrivningar och avsättningar.

#### Marknadsprisrisker:

Koncernen är utsatt för marknadsprisrisker i värderingen av aktier och andelar i investeringsfonder, samt för ränterisker, kreditspridningsrisker, valutarisker, volatilitets- och korrelationsrisker samt råvaruprisrisker.

#### Strategiska risker:

Det finns en risk för att Koncernen inte kommer att kunna genomföra sina strategiska planer eller endast kommer kunna göra det till viss del eller till högre kostnader än planerat, och att genomförandet av de planerade åtgärderna kanske inte kommer att leda till att de eftersträlvade strategiska målen uppnås.

#### Risker från konkurrensmiljön:

De marknader inom vilka Koncernen är aktiv, i synnerhet den tyska marknaden (och i synnerhet affärer vad gäller privat- och företagskunder samt *investment banking*-verksamhet) och den polska marknaden, är karaktäriserade av intensiv konkurrens vad gäller pris och transaktionsvillkor vilket resulterar i avsevärd press på marginalerna.

#### Likviditetsrisker:

Koncernen är beroende av regelbunden tillförsel av likviditet och en marknadsomfattande eller företagsspecifik likviditetsbrist kan få väsentliga negativa effekter på Koncernens nettotillgångar, finansiella ställning och rörelseresultat. För närvarande är bankers och andra finansmarknadsaktörers tillgång till likviditet starkt beroende av centralbankernas expansiva åtgärder.

#### Operationella risker:

Koncernen är utsatt för ett stort antal operationella risker, däribland risken för att medarbetarna utsätter Koncernen för omfattande risker på Koncernens bekostnad eller bryter mot lagstiftning relevant för regelefterlevnad under sina affärsaktiviteter och därigenom orsakar en plötslig uppkomst av avsevärda förluster vilka också indirekt skulle kunna leda till en ökning av kapitalkrav genom statlig reglering.

#### Risker från aktiepositioner:

COMMZERBANK är utsatt för särskilda risker när det gäller värdet och förvaltningen av investeringar i noterade och icke-noterade företag. Det är möjligt att den goodwill som redovisas i Koncernens balansräkning helt eller delvis måste skrivas ned som ett resultat av nedskrivningstester.

#### Risker från bankspecifik lagstiftning:

Allt strängare krav avseende kapital och likviditet samt processuella krav och rapporteringskrav kan leda till att affärsmodellen i ett antal av Koncernens verksamheter ifrågasätts och kan få en negativ effekt på Koncernens konkurrensställning eller göra anskaffandet av

ytterligare aktiekapital nödvändigt. Andra lagreformer som föreslås i kölvattnet efter finanskrisen, till exempel avgifter som bankskatt eller en möjlig skatt på finansiella transaktioner, separationen av handel för egen räkning (*proprietary trading*) från placeringsverksamheten eller strängare upplysnings- eller organisationskrav, skulle väsentligen kunna påverka koncernens affärmodell och konkurrensmiljö.

#### Juridiska risker:

Tvister kan uppkomma inom COMMERZBANKs affärsverksamhet och deras utfall går inte att förutspå vilket medför risk för Koncernen. Exempelvis har skadeståndsanspråk på grund av bristfälliga investeringsråd lett till betydande ansvar för Koncernen och kan komma att leda till ytterligare betydande ansvar för Koncernen i framtiden. Betalnings- och ersättningsanspråk har riktats mot COMMERZBANK och dess dotterbolag, i vissa fall i domstol, i samband med vinstutdelningscertifikat och s.k. *trust preferred securities* som Koncernen emitterat. Resultaten av rättsprocesserna kan få väsentligt negativa effekter på Koncernen, utöver de anspråk som framställs i respektive fall. Regulatoriska processer, tillsynsprocesser och rättsliga förfaranden kan få en väsentlig negativ effekt på Koncernen. Rättsprocesser som inleds av lagstiftare, tillsynsmyndigheter och åklagare kan få en väsentlig negativ effekt på Koncernen.

#### **D.6 Viktig information om de nyckelrisker som är specifika för värdepapperen**

##### Ingen sekundärmarknad omedelbart före slutligt förfall

Marknadsgarantens och/eller börsens handel med Obligationerna kommer att upphöra strax före Obligationernas Förfallodag. Dock kan, mellan den sista handelsdagen och Värderingsdagen, priset på den Underliggande Tillgången och/eller gällande växelkurs, som båda kan vara relevanta för Obligationerna, fortfarande ändras, och alla typer av trösklar eller kurser, i förekommande fall, som kan vara relevanta för betalningar enligt Obligationerna, kan komma att nås, överskridas eller på annat sätt brytas för första gången. Detta kan vara till investerarens nackdel.

##### Ingen säkerhet

Obligationerna är ovillkorade förpliktelser för Emittenten. De garanteras varken av den Tyska Bankföreningens Insättningsgarantinämnd (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) eller av den tyska lagen om insättningsgaranti och investerarskydd (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Det betyder att investerarna bär risken för att Emittenten inte kan fullgöra sina skyldigheter enligt Obligationerna, eller endast kan fullgöra dem delvis. Under dessa omständigheter är det möjligt att investeraren förlorar hela sitt kapital.

Det betyder att investeraren bär risken för att Emittentens finansiella situation kan komma att förvärras och att Emittenten därför blir föremål för ett omstruktureringsförfarande (*Reorganisationsverfahren*) eller ett överlåtelseförfarande (*Übertragungsanordnung*) enligt den tyska omstruktureringslagen eller att insolvensförfaranden kan komma att inledas avseende Emittentens tillgångar – och leda till att Emittenten inte kan göra några utbetalningar enligt Obligationerna, eller endast göra vissa utbetalningar. Under dessa omständigheter är det möjligt att

investeraren förlorar hela sitt kapital.

#### Krav på utländsk källskatt kan påverka utbetalningar på Obligationerna

Emittenten och andra finansiella institutioner som gör utbetalningar på Obligationerna kan tvingas innehålla en källskatt på upp till 30 procent på betalningar gjorda efter den 31 december 2016 avseende Obligationer som emitteras eller ändras väsentligt efter den 31 december 2013, i enlighet med Section 1471 till 1474 i U.S. Internal Revenue Code, oftast kallad "FATCA" (Foreign Account Tax Compliance Act). Det kan också finnas källskattekrav – oavsett emissionsdatum – om Obligationerna är att betrakta som aktieinstrument enligt skattelagstiftningen i USA. FATCA-lagstiftningen ovan är ännu inte slutgiltig. **Investerare i Obligationerna bör därför vara medvetna om det faktum att betalningar enligt Obligationerna i vissa fall kan omfattas av källskatt i USA, vilket skulle kunna minska Obligationernas ekonomiska resultat.**

#### Effekter av en nedgradering av kreditvärdigheten

Värdet på Obligationerna kan påverkas av det kreditbetyg som kreditvärderingsföretag ger Emittenten. En eventuell nedgradering av Emittentens kreditvärdighet av endast ett av dessa kreditvärderingsföretag skulle kunna resultera i att Obligationerna minskar i värde.

#### Uppsägning, förtida inlösen och justeringsrättigheter

Emittenten har rätt att utföra justeringar i Villkoren eller säga upp och lösa in Obligationerna i förtid om vissa villkor är uppfyllda. Detta kan få negativa effekter på Obligationernas värde samt Uppsägningsbeloppet. Om Obligationerna sägs upp kan det belopp som ska utbetalas till Obligationsinnehavarna i händelse av en uppsägning av Obligationerna bli lägre än det belopp som Obligationsinnehavarna skulle ha erhållit utan uppsägningen

#### Marknadsstörande händelse

Emittenten har rätt att fastställa marknadsstörande eller andra händelser som kan leda till att både beräkningar och/eller betalningar enligt Obligationerna skjuts upp, vilket kan påverka Obligationernas värde. Dessutom kan Emittenten, i vissa fall, uppskatta vissa relevanta priser när det gäller att nå eller passera gränser. Dessa uppskattningar kan avvika från det verkliga värdet.

#### Byte av Emittent

Om de gällande Villkoren är uppfyllda har Emittenten rätt att när som helst och utan medgivande från innehavarna av Obligationerna i sitt ställe utse ett annat företag som ny Emittent, och överlåta alla förpliktelser med anknytning till Obligationerna. I så fall får innehavaren av Obligationerna i allmänhet också ta den insolvensrisk som förknippas med den nya Emittenten.

#### Riskfaktorer som förknippas med de Underliggande Tillgångarna

Obligationerna är beroende av värdet på den Underliggande Tillgången och den risk som förknippas med den Underliggande

Tillgången. Värdet av den Underliggande Tillgången beror på många faktorer som kan höra ihop. Det kan röra sig om ekonomiska, finansiella och politiska händelser som ligger utanför Emittentens kontroll. Avkastningen på en Underliggande Tillgång eller en indexkomponent kan inte betraktas som en indikation på framtida avkastning under Obligationernas löptid.

#### Risk förknippad med automatisk förtida inlösen

Under vissa omständigheter som anges i de relevanta Slutliga Villkoren kan Obligationerna komma att lösas in i förtid om vissa villkor är uppfyllda, vilket kan få en negativ påverkan på Obligationernas ekonomi för investeraren.

#### Risk vid förfall

Inlösen av Obligationerna på Förfalldagen beror på utvecklingen för den eller de Underliggande Tillgångarna, i förekommande fall. Om Obligationerna har en Valutaexponering beror Obligationernas Inlösenbelopp inte bara på utvecklingen för den eller de Underliggande Tillgångarna, utan även på Omräkningskursens utveckling.

Ett Inlösenbelopp betalas endast ut om den Underliggande Utvecklingen för den Underliggande Tillgången med Sämst Utveckling är större än noll (0). Om den Underliggande Utvecklingen för den Underliggande Tillgången med Sämst Utveckling är 0 (noll) utbetalas inget Inlösenbelopp överhuvudtaget. **I så fall förlorar investeraren hela det investerade kapitalet (inklusive transaktionskostnader).**

#### Risker om investeraren avser eller måste sälja Obligationerna under deras löptid:

##### *Marknadsvärderisk:*

Det försäljningspris som går att uppnå före Förfalldagen kan vara väsentligt lägre än det inköpspris som investeraren betalat.

Obligationernas marknadsvärde beror huvudsakligen på den Underliggande Tillgångens utveckling. I synnerhet kan följande faktorer ha en väsentlig inverkan på Obligationernas marknadsvärde:

- Förändringar i den förväntade intensiteten i fluktuationerna för den Underliggande Tillgången (volatilitet)
- Återstående löptid för Obligationerna
- Ränteutveckling
- Utdelningsutvecklingen för de aktier som utgör Index
- Utdelningsutvecklingen för det Fondbolag som emitterar ETF-andelarna som är underliggande tillgång till Obligationerna

Var och en av dessa faktorer kan påverka i sig, eller förstärka eller motverka varandra.

##### *Handelsrisk:*

Emittenten är varken skyldig att fortlöpande tillhandahålla köp- och

säljkurser för Obligationerna på (i) de börser där Obligationerna är noterade eller på (ii) OTC-basis (over the counter), eller att köpa tillbaka Obligationer. Även om Emittenten normalt tillhandahåller köp- och säljkurser kan köp och försäljning av Obligationerna, under extraordinära marknadsvillkor eller vid tekniska problem, tillfälligt begränsas eller omöjliggöras.

## AVSNITT E – ERBJUDANDE OCH FÖRSÄLJNING

Punkt	Beskrivning av Punkt	Upplysningskrav
E.2b	<b>Motiven till erbjudandet och användningen av de medel det förväntas tillföra, om det inte avser lönsamhet eller skydd mot vissa risker</b>	Ej tillämplig  Vinstmotivering
E.3	<b>Beskrivning av erbjudandets former och villkor</b>	Commerzbank erbjuder under teckningsperioden från 4 september 2014 till 16 oktober 2014 högst SEK 100.000.000 Obligationer till en inledande emissionskurs om 100% per Obligation.  Emittenten har rätt att (i) avsluta teckningsperioden i förtid, (ii) förlänga teckningsperioden eller (iii) annullera erbjudandet. Efter utgången av teckningsperioden fortsätter Emittenten att erbjuda Obligationer. Erbjudandepriset bestäms fortlöpande.
E.4	<b>Eventuella intressen som har betydelse för emissionen/erbjudandet, inbegripet intressekonflikter</b>	Nedanstående intressekonflikter kan uppstå i samband med att Emittenten utövar sina rättigheter och/eller skyldigheter i enlighet med Villkoren för Obligationerna (t.ex. i samband med fastställande eller anpassning av parametrar i villkoren), som kan påverka de utbetalningsbara beloppen:  - genomförande av transaktioner i de(n) Underliggande Tillgången(-arna)  - emission av ytterligare derivatinstrument med koppling till de(n) Underliggande Tillgången(-arna)  - affärsförhållanden med emittenten av de(n) Underliggande Tillgångens(-arnas)  - innehav av väsentlig (däribland icke-offentlig) information om de(n) Underliggande Tillgången(-arna)  - rollen som Marknadsgarant
E.7	<b>Beräknade kostnader som kan åläggas investeraren av emittenten eller erbjudaren</b>	Investeraren kan normalt köpa Obligationerna till en fast emissionskurs. Den fasta emissionskursen innefattar alla kostnader som Emittenten har i samband med emissionen och försäljningen av Obligationerna (t.ex. för distribution, strukturering och säkring samt en vinstmarginal för Commerzbank).
