

IMPORTANT NOTICE

In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.

EU MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("**Regulation S**"). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

Final Terms dated 28 June 2023

NORDEA BANK ABP
Legal entity identifier (LEI): 529900ODI3047E2LIV03
Issue of NOK denominated Equity Linked Notes of Series D146
under the €15,000,000,000
Structured Note Programme

The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (b) below, any offer of Notes in any Member State of the European Economic Area will be made pursuant to an exemption under the EU Prospectus Regulation, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer of the Notes may only do so:

- (a) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation, in each case, in relation to such offer; or
- (b) in those Public Offer Jurisdictions mentioned in Paragraph 10 of Part B below, provided such person is one of the persons described in Paragraph 10 of Part B below and that such offer is made during the Offer Period specified for such purpose therein.

The Issuer has not authorised, and it does not authorise, the making of any offer of Notes in any other circumstances. The expression "**EU Prospectus Regulation**" means Regulation (EU) 2017/1129.

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the base prospectus dated 16 December 2022 which constitutes a base prospectus (the "**Base Prospectus**") for the purposes of the EU Prospectus Regulation. This document constitutes the Final Terms of the Notes described herein for the purposes of the EU Prospectus Regulation and must be read in conjunction with the Base Prospectus in order to obtain all relevant information. A summary of the Notes is annexed to these Final Terms. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus and these Final Terms are available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer at Satamaradankatu 5, FI-00020 Nordea, Helsinki, Finland and from www.garantum.se.

What are the Key Risks Specific to the Issuer?

The global coronavirus outbreak, which has negatively impacted the economies exposed to the outbreak, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity: The outbreak of COVID 19 (also commonly referred to as the "coronavirus") spread globally in the first half of 2020 and has disrupted various markets and has resulted in significant uncertainty about the development of the economies affected by the outbreak both in Europe and elsewhere. The majority of the Nordea Group's operations are concentrated in the Nordic countries that have been, and are expected to continue to be, exposed to the coronavirus outbreak in a similar manner as a number of other European countries. The Nordea Group has been, and may continue to be, affected by the coronavirus outbreak through its direct and indirect impact on the customers, counterparties, employees and other stakeholders of the Nordea Group, both in the Nordic countries and elsewhere, as a result of, among others, public health measures, such as business closings and restrictions on travel and gatherings. There can also be no assurances that the adverse impact of the coronavirus outbreak will not lead to a tightening of liquidity conditions or funding uncertainty, or adversely affect the credit ratings assigned to Nordea or its subsidiaries. New regulatory requirements may also be introduced in the future to address any liquidity concerns or other adverse effects the coronavirus outbreak may have

on the financial sector, and financial institutions, such as the Nordea Group, could also become subject to related heightened supervisory demands. Any future adverse consequences related to the coronavirus outbreak not yet known, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to, among others, meet its financial targets or access capital and liquidity on financial terms acceptable to the Nordea Group.

Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations: The Nordea Group's performance is significantly influenced by the general economic conditions in the Nordic markets (Denmark, Finland, Norway and Sweden). Development of the economic conditions in other markets where the Nordea Group currently operates can also affect the Nordea Group's performance. Economic developments have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and services.

Deterioration in counterparties' credit quality may affect the Nordea Group's financial performance: Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Nordea Group's businesses. The Nordea Group makes provisions for loan losses in accordance with IFRS. However, the provisions made are based on available information, estimates and assumptions and are subject to uncertainty, and there can be no assurances that the provisions will be sufficient to cover the amount of loan losses as they occur. Adverse changes in the credit quality of the Nordea Group's borrowers and counterparties or a decrease in collateral values, are likely to affect the recoverability and value of the Nordea Group's assets and require an increase in the Nordea Group's individual provisions and potentially in collective provisions for impaired loans, which in turn would adversely affect the Nordea Group's financial performance. In particular, the Nordea Group's exposure to corporate customers is subject to adverse changes in credit quality should the economic environment in the Nordea Group's markets deteriorate.

The Nordea Group is exposed to market price risk: The Nordea Group's customer-driven trading operations and its treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which, in turn, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

The Nordea Group is subject to extensive regulation that is subject to change: Companies active in the financial services industry, including the Nordea Group, operate under an extensive regulatory regime. The Nordea Group is subject to laws and regulations, administrative actions and policies as well as related oversight from the local regulators in each of the jurisdictions in which it has operations. The Nordea Group is also under the direct supervision and subject to the regulations of the European Central Bank, as a result of the size of its assets. Regulatory developments or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved, or unexpected requirements under, or uncertainty with respect to, the regulatory framework to be applied to the Nordea Group, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

Liquidity risk is inherent in the Nordea Group's operations: Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial portion of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale funding markets, including issuance of long-term debt market instruments, such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea

Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

Operational risks, including risks in connection with investment advice, may affect the Nordea Group's business: The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies. The Nordea Group's operations are carried out through a number of entities. Operational losses, including monetary damages, reputational damage, costs, and direct and indirect financial losses and/or write-downs, may result from many different sources. As a part of its banking and asset management activities, the Nordea Group also provides its customers with investment advice, access to internally as well as externally managed funds and serves as custodian of third party funds. In the event of losses incurred by its customers due to investment advice from the Nordea Group, or the misconduct or fraudulent actions of external fund managers, the Nordea Group's customers may seek compensation from the Nordea Group. Although the Nordea Group has implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group.

3. Key Information on the Securities

What are the Main Features of the Securities?

- (a) The Notes are Coupon Bearing Notes - Autocallable in Registered Form bearing ISIN NO0012954298.
- (b) The Notes are issued in NOK in denominations of NOK 10,000. The total nominal amount of the Notes will be specified in the Final Terms Confirmation Announcement following completion of the Offer Period. The Notes mature in September 2028.
- (c) ***'Worst of' Autocallable:*** The return of the Notes depends on the performance of the worst performing Reference Asset during the lifetime of the investment.

If, on a valuation date, all Reference Assets are at or above the coupon barrier, a coupon will be paid. If the coupon type of the Notes is Memory, a coupon will be paid for all preceding periods for which a coupon has not been paid.

If, on an observation date, all Reference Assets are at or above the call barrier, the Notes will redeem early and the nominal amount will be paid on the early redemption date immediately following the observation date.

If, on an observation date, the worst performing Reference Asset is below the call barrier, the Notes will not redeem and the maturity will extend at least to the next early redemption date. On the last observation date there are three possible scenarios:

1. All Reference Assets are at or above the coupon barrier. The Notes will then pay the nominal amount plus a coupon on the redemption date.
 2. The worst performing Reference Asset is below the coupon barrier, but at or above the risk barrier. The Notes will then pay the nominal amount on the redemption date.
 3. The worst performing Reference Asset is below the risk barrier. The Notes will then pay the nominal amount, as reduced by the negative performance of the worst performing Reference Asset, on the redemption date. This implies that investors in the Notes may not get the nominal amount back and in worst case could lose all of their investments.
- (d) By investing in the Notes, an investor will be assuming the risk that the Issuer will not be able to make payments on the securities in accordance with their terms. On an insolvency of the Issuer, there is a risk that the investors may lose some or all of their investment. The Notes constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future. The Notes could also be subject to the bail-in power in the event of a resolution of the Issuer under directive 2014/59/EU, as implemented in Finland, and may be written

down or converted into other securities (including ordinary shares) if the resolution authority determines that this is necessary in order to restore the viability of the Issuer.

- (e) The Notes are freely transferable by their terms, although the Base Prospectus summarises certain legal restriction on the offers and sales of Notes in certain jurisdictions.

Where will the Securities be Traded?

Application will be made for the Notes to be admitted to trading on Nasdaq Stockholm effective as of 26 September 2023.

What are the Key Risks that are Specific to the Securities?

Complexity of the product: the performance structure for structured Notes is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. In addition, the relationship between yield and risk may be difficult to assess.

Automatic early redemption: the Notes will be automatically redeemed prior to their scheduled maturity date if certain conditions are met. In some circumstances, this may result in a loss of part or all an investor's future coupon or interest payments in respect of the Notes. Because certain costs and expenses are deducted from the issue price, an early redemption of the Notes may also result in proportionately higher expenses.

Notes are not principal protected: the Notes are not principal protected and as a result an investor may lose all or part of the invested amount.

There may be no active trading market for the Notes: the Notes will be new securities which may not be widely distributed and/or may be unlisted and, even if listed, may not have an active trading market. The lack of an active trading market may result in reduced liquidity for the Notes, with the result that the investor may have to hold such Notes until they are redeemed. Nordea is under no obligation to buy back or make a market in any Notes. Noteholders should be aware that the secondary market for the Notes and instruments of this kind may be illiquid due to, among other things, the disruptions and volatility in the global financial markets that have continued through recent years. Noteholders should also be aware that inflation could have an adverse effect on the value of the relevant Notes (including, without limitation, capital protected Notes), including where the return on the Notes is below the level of the relevant inflation rate(s).

Performance of the Reference Assets: with structured Notes, the Noteholder's right to yield and repayment of principal depends on the performance of one or more underlying assets (the "**Reference Assets**") and the performance structure. The value of the Notes may be affected by the value of the Reference Assets at specific points during the term of the relevant Notes, the intensity of the price fluctuations of the Reference Asset(s), expectations regarding future volatility, market interest rates and expected distributions on the Reference Asset(s). The value of Notes can fluctuate above or below their issue price during the lifetime of such Notes. Because the Notes have a "worst of" feature, the Notes will produce results that will be dependent on the performance of a single Reference Asset and may be very different to the performance of the basket as a whole. In addition to exposure to the Reference Assets, an investment in Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes.

Currency fluctuations: foreign exchange rates may be affected by complex political and economic factors, including relative rates of inflation, interest rate levels, the balance of payments between countries, the extent of any governmental surplus or deficit and the monetary, fiscal and/or trade policies pursued by the governments of the relevant currencies. Currency fluctuations may affect the value or level of the Reference Assets in complex ways. If such currency fluctuations cause the value or level of the Reference Assets to vary, the value or level of the Notes may fall. If the value or level of one or more Reference Asset(s) is denominated in a currency that is different from the currency of the Notes, investors in the Notes may be subject to increased foreign exchange risk. Previous foreign exchange rates are not necessarily indicative of future foreign exchange rates.

Risks relating to market disruption and extraordinary events: Reference Assets may be affected by disruption to their normal trading markets, or extraordinary events such as delisting, nationalisation,

bankruptcy, liquidation or dilutive events affecting the relevant Reference Asset. For all structured Notes, events such as changes in the law or increased costs for risk management may arise. If so, the Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Notes or replace one Reference Asset with another Reference Asset, as the Issuer deems necessary.

Equities as Reference Assets: the Notes are not sponsored or promoted by the issuer of the equities. The equity issuer does not, therefore, have an obligation to take into account the interests of the investors in the Notes and so the actions of such equity issuer could adversely affect the market value of the Notes. The investor in the Notes is not entitled to receive any dividend payments or other distributions to which a direct holder of the underlying equities would otherwise be entitled.

4. Key Information on the Offer of Securities to the Public and/or the Admission to Trading on a Regulated Market

Under which Conditions and Timetable can I Invest in this Security?

- a) A Public Offer of the Notes will take place in Norway from and including 3 July 2023 to and including 1 September 2023 (the "**Offer Period**").

The Offer Price will be 100 per cent. of the Aggregate Principal Amount of each Note.

The Issuer reserves its rights to cancel the offer under the following circumstances;

- if the aggregate principal amount of Notes purchased on or before 1 September 2023 is less than NOK 15,000,000;
- if the Coupon cannot be set at least at 2.00 per cent.; or
- if any event of an economic, financial or political nature occurs and which may jeopardise a successful offer, as determined by the Issuer.

- b) Application will be made for the Notes to be admitted to trading on Nasdaq Stockholm effective as of 26 September 2023.

- c) In connection with the issuance of this type of notes, the Issuer may incur costs for, among other things, production, distribution, licenses, stock exchange listing and risk management. In order to cover these costs, the Issuer charges production fees. The production fee is included in the purchase price charged by the Issuer to the relevant purchaser, distributor or Authorised Offeror and will amount to a maximum of 2.00 per cent, (0.40 per cent per year), calculated on the price of the Notes.

A distribution fee of up to 6 per cent (1.20 per cent per year) calculated on the price of the Notes will be paid by the Issuer to the Authorised Offeror. The distribution fee is included in the purchase price charged by the Issuer.

Who is the Offeror and/or the Person Asking for Admission to Trading?

The offeror in respect of the Notes and the person requesting the admission of the Notes to trading is the Issuer. The Notes may also be offered by Garantum Fondkommission Aktiebolag whom the Issuer has appointed as Authorised Offeror's in respect of the Notes.

Authorised Offeror	Domicile and Country of Incorporation	Legal Form	Law under which it Operates
Garantum Fondkommission Aktiebolag	The Authorised Offeror is incorporated under the laws of Sweden	Private limited liability company	Swedish Law

Any investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements.

Why is this Prospectus Summary Being Produced?

- a) The Offer is being made to provide funding for the Issuer and offer investors a return linked to the performance of the Reference Assets. The net proceeds of the issue of the Notes will be used for the general banking and other corporate purposes of the Issuer and the Nordea Group.
- b) The offer of the Notes is not underwritten.
- c) Authorised Offerors and other third party distributors may be paid fees in relation to the issue of the Notes. Save for the foregoing, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

Hva er de viktigste risikoene som er spesifikke for Utstederen?

Det globale utbruddet av coronavirus, som har hatt en negativ påvirkning på økonomiene berørt av utbruddet, kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, økonomiske

situasjon og driftsresultater og negativt påvirke Nordea-konsernets tilgang til kapital og likviditet: Utbruddet av COVID-19 (som også ofte omtales som «coronaviruset») spredte seg globalt i første halvår av 2020 og har skapt uro på flere markeder og resultert i betydelig usikkerhet rundt utviklingen i de økonomiene som har blitt berørt av utbruddet både i Europa og andre steder. Størstedelen av Nordea-konsernets forretninger er konsentrert i de nordiske landene som har vært, og som forventes å stadig være, berørt av utbruddet av coronavirus i samme grad som en rekke andre europeiske land. Nordea-konsernet har blitt og kan fortsette å påvirkes av utbruddet av coronavirus gjennom dets direkte og indirekte påvirkning på kunder, motparter, medarbeidere og andre interessenter i Nordea-konsernet, både i de nordiske landene og andre steder, som et resultat av, blant annet, offentlige folkehelseiltak som stengning av butikker og begrensninger på reiseaktivitet og forsamlings. Det kan ikke gis noen garantier for at de negative konsekvensene av coronaviruset ikke vil føre til en innstramning av likviditetsforholdene, skape finansieringsusikkerhet, eller negativt påvirke kredittvurderingen til Nordea eller dets datterselskaper. Det kan også i fremtiden bli introdusert nye regulatoriske krav for å imøtekomme bekymringer knyttet til likviditet eller andre negative konsekvenser utbruddet av coronaviruset vil kunne ha på den finansielle sektoren og finansielle institusjoner, slik som Nordea-konsernet, vil også kunne bli gjenstand for relaterte forhøyede tilsynskrav. Enhver fremtidig negativ konsekvens av coronaviruset, som fortsatt ikke er kjent, kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, økonomiske situasjon og driftsresultater og negativt påvirke Nordea-konsernets mulighet til å, blant annet, møte sine finansielle mål eller få tilgang til kapital og likviditet på finansielle vilkår som er akseptable for Nordea-konsernet.

Negativ økonomisk utvikling og negative forhold i markedene som Nordea-konsernet har virksomhet i, kan ha negativ effekt på Nordea-konsernets virksomhet og driftsresultater: Nordea-konsernets resultater påvirkes i vesentlig grad av de generelle økonomiske forholdene i de nordiske markedene (Danmark, Finland, Norge og Sverige). Utviklingen i de økonomiske forholdene i andre markeder der Nordea-konsernet for tiden har virksomhet, kan også påvirke resultatene til Nordea-konsernet. Økonomiske utviklingstendenser har påvirket og kan fortsette å påvirke Nordea-konsernets virksomhet på mange måter, herunder blant annet inntekt, formue, likviditet, virksomhetsforhold og/eller finansiell stilling for Nordea-konsernets kunder, som igjen kan redusere Nordea-konsernets kredittverdighet og etterspørsel etter Nordea-konsernets produkter og tjenester.

Forverring av motparters kredittverdighet kan påvirke Nordea-konsernets økonomiske resultat: Risikoer som oppstår som følge av endringer i motparters kredittverdighet og muligheten til tilbakebetaling av lån og forfalte beløp fra motparter er iboende i en lang rekke av Nordea-konsernets forretninger. Nordea-konsernet gjør avsetninger for utlånstap i henhold til IFRS. Avsetningene er imidlertid basert på slik informasjon, slike anslag og antagelser som er tilgjengelig, og vil være beheftet med usikkerhet, og det kan ikke gis noen garantier for at avsetningene vil være tilstrekkelige til å dekke utlånstapene etter hvert som de oppstår. Negative endringer i kredittverdigheten til Nordea-konsernets låntakere og motparter eller en nedgang i sikkerhetsverdier kan forventes å påvirke muligheten til tilbakebetaling og verdien av Nordea-konsernets aktiva og kreve en økning i Nordea-konsernets individuelle avsetninger og potensielt i kollektive avsetninger for misligholdte lån, hvilket igjen ville påvirke Nordea-konsernets finansielle resultat negativt. Nordea-konsernets eksponering mot næringslivskunder er særlig sårbar for negative endringer i kredittverdigheten om den økonomiske situasjonen i Nordea-konsernets markeder skulle forverres.

Nordea-konsernet er eksponert for markedsprisindeksrisiko: Nordea-konsernets kundeorienterte handelsaktiviteter og dets treasury-aktiviteter (der Nordea-konsernet fører investerings- og likviditetsporteføljer i eget navn) er de viktigste bidragsyterne til markedsprisindeksrisikoen i Nordea-konsernet. Dersom volatile markedsforhold vedvarer eller er gjentakende, vil den virkelige verdien til Nordea-konsernets obligasjons-, derivat og strukturerte kredittporteføljer, så vel som andre investeringsklasser, kunne falle mer enn estimert og dermed føre til at Nordea-konsernet gjør nedskrivninger. Siden Nordea-konsernets handels- og investeringsinntekter videre i stor grad avhenger av utviklingen i finansmarkedene, kan volatile markedsforhold føre til en betydelig nedgang i Nordea-konsernets handels- og investeringsinntekter, eller resultere i tap på trading, som igjen kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, økonomiske stilling og driftsresultater.

Nordea-konsernet er gjenstand for omfattende regulering som er i endring: Virksomheten til selskaper som er aktive i markedet for finansielle tjenester, inkludert Nordea-konsernet, er underlagt et omfattende regulatorisk regime. Nordea-konsernet er underlagt lover og forskrifter, administrative tiltak og retningslinjer så vel som tilhørende tilsyn fra lokale tilsynsmyndigheter i hver jurisdiksjon

konsernet har virksomhet i. Som et resultat av størrelsen på sine aktiva er Nordea-konsernet også underlagt tilsynsmyndigheten til og reguleringsbestemmelser gitt av Den europeiske sentralbanken. Regulatorisk utvikling eller alle andre krav, restriksjoner eller begrensninger av driften til finansinstitusjoner og tilknyttede kostnader, eller uventede krav eller usikkerhet relatert til det regulatoriske rammeverket som gjelder for Nordea-konsernet, kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, økonomiske stilling og driftsresultater.

Likviditetsrisiko er iboende i Nordea-konsernets virksomheter: Likviditetsrisiko er risikoen for at Nordea-konsernet ikke vil være i stand til å oppfylle sine forpliktelser etter hvert som de forfaller eller bare kan oppfylle sine likviditetsforpliktelser til økte kostnader. En vesentlig del av Nordea-konsernets likviditets- og kapitalkrav oppfylles ved kundeinnskudd, samt vedvarende tilgang til en gros kapitalmarkeder, herunder ved utstedelse av langsiktige lånemarkedsinstrumenter som obligasjoner med fortrinnsrett. Volumet på disse finansieringskildene, spesielt langsiktig finansiering, kan bli begrenset i perioder med anstrengt likviditet. Turbulens i de globale finansmarkedene og den globale økonomien kan en negativ effekt på Nordea-konsernets likviditet samt visse motparters og kunders vilje til å gjøre forretninger med Nordea-konsernet. Dette kan føre til vesentlige negative effekter på Nordea-konsernets virksomhet og driftsresultat.

Operasjonelle risikoer, herunder risiko i forbindelse med investeringsrådgivning, kan påvirke Nordea-konsernets virksomhet: Nordea-konsernets virksomhet avhenger av evnen til å gjennomføre et stort antall komplekse transaksjoner på tvers av forskjellige markeder i mange valutaer. Nordea-konsernets virksomhet utføres gjennom en rekke ulike enheter. Operasjonelle tap, inkludert erstatningsansvar, omdømmetap, kostnader, og direkte og indirekte økonomiske tap og/eller nedskrivninger, kan oppstå som følge av mange ulike årsaker. Som ledd i sine bank- og kapitalforvaltningsaktiviteter, tilbyr Nordea-konsernet sine kunder også investeringsråd, tilgang til internt så vel som eksternt forvaltede fond og tjener som nominee/custodian for fond forvaltet av tredjeparter. I tilfelle av tap påført kundene som følge av investeringsråd fra Nordea-konsernet, eller utilbørlig adferd eller svikaktige handlinger utført av eksterne fondsforvaltere, kan Nordea-konsernets kunder komme til å fremme erstatningskrav mot Nordea-konsernet. Selv om Nordea-konsernet har implementert risikokontroller og tatt andre forholdsregler for å begrense eksponeringen og/eller tapene, kan det ikke gis noen garantier for at slike prosedyrer vil være effektive å kontrollere hver enkelt operasjonell risiko som Nordea-konsernet møter.

3. Nøkkelinformasjon om Verdipapirene

Hva er Verdipapirenes viktigste egenskaper?

- (a) Verdipapirene er «Coupon Bearing Notes – Autocallable» i Registrert Form med ISIN NO0012954298.
- (b) Det enkelte Verdipapir er utstedt i NOK med pålydende verdi på NOK 10 000. Verdipapirenes totale pålydende verdi vil bli spesifisert ved kunngjøringen av de bekreftede endelige vilkårene etter at Tilbudsperioden har utløpt. Verdipapirene forfaller i september 2028.
- (c) «**Worst of**» **Autocallable:** Verdipapirenes avkastning avhenger av utviklingen til det Referanseaktivumet med verst utvikling i investeringens levetid.

Hvis, på en verdsettelsesdato, alle Referanseaktiva er på eller over kupong-barrieren, vil en kupong bli betalt. Hvis Verdipapirenes kupongtype er «Memory», vil en kupong bli betalt for hver forutgående periode hvor det ikke er utbetalt kupong.

Hvis, på en observasjonsdato, alle Referanseaktiva er på eller over call-barrieren, vil Verdipapirene forfalle førtidig og pålydende Verdi tillagt en kupong for hver observasjonsdato som har forløpt, vil bli betalt på den førtidige innløsningsdatoen som umiddelbart følger observasjonsdatoen.

Hvis, på en observasjonsdato, det dårligst presterende Referanseaktivumet er under call-barrieren, vil Verdipapirene ikke forfalle og løpetiden vil utvides i det minste til den neste førtidige innløsningsdatoen. På den siste observasjonsdatoen er det tre mulige scenarier:

1. Alle Referanseaktiva noterer på eller over kupong-barrieren. På Verdipapirene vil det på innløsningsdatoen bli utbetalt pålydende tillagt en kupong.

2. Det dårligst presterende Referanseaktivumet er under kupong-barrieren, men på eller over risiko-barrieren. På Verdipapirene vil det bli utbetalt pålydende verdi på innløsningsdatoen.

3. Det dårligst presterende Referanseaktivumet noterer under risiko-barrieren. På Verdipapirene vil det på innløsningsdatoen bli utbetalt pålydende, men proporsjonalt redusert med den negative kursutviklingen til det Referanseaktivumet med verst kursutvikling. Dette kan medføre at investor i Verdipapirene ikke får pålydende beløp tilbake og i verste fall kan tape hele sin investering.

- (d) Ved å investere i Verdipapirene påtar investoren seg risikoen for at Utstederen ikke vil være i stand til å gjennomføre utbetalinger på verdipapirene i henhold til deres vilkår. Hvis Utstederen blir insolvent, er det risiko for at investorene vil tape hele eller deler av sin investering. Verdipapirene utgjør usikrede og ordinære forpliktelser for Utstederen og er pari passu uten noen intern preferanse mellom hverandre og minst pari passu med alle andre utestående, nåværende og fremtidige, ordinære og usikrede gjeldsforpliktelser for Utstederen. Verdipapirene kan også bli gjenstand for krisehåndteringsordningen under direktiv 2014/59/EU, som implementert i Finland, dersom Utstederen blir gjenstand for en avvikling og de kan bli nedskrevet eller konvertert til andre verdipapirer (inkludert til ordinære aksjer) hvis krisehåndteringsmyndigheten bestemmer at det er nødvendig for å gjenopprette Utstederens levedyktighet.
- (e) Verdipapirene er fritt omsettelige i henhold til deres vilkår, men Grunnprospektet oppsummerer visse rettslige begrensninger vedrørende tilbud og salg av Verdipapirene i noen jurisdiksjoner.

Hvor vil verdipapirene bli handlet?

Det vil bli søkt om opptak til notering og handel av Verdipapirene på Nasdaq Stockholm med virkning fra og med 26 september 2023.

Hva er de viktigste risikoene som er spesifikke for Verdipapirene?

Produktets kompleksitet: Avkastningsstrukturen for sammensatte Verdipapirer er av og til kompleks og kan inneholde matematiske formler eller sammenhenger som, for en investor, kan være vanskelige å forstå og sammenligne med andre investeringsalternativer. Sammenhengen mellom avkastning og risiko kan videre være vanskelig å vurdere.

Automatisk førtidig forfall: Verdipapirene forfaller automatisk før sin forhåndsfastsatte forfallsdag hvis visse betingelser oppfylles. Under visse omstendigheter vil dette medføre tap av alle eller noen av investorens fremtidige kupong- eller rentebetalinger på Verdipapirene. På grunn av at visse kostnader og utgifter trekkes fra emisjonskursen, kan Verdipapirenes førtidige innløsning også medføre forholdsmessig høyere kostnader.

Verdipapirene har ingen hovedstolbeskyttelse: Verdipapirene har ingen hovedstolbeskyttelse og følgelig kan investoren tape all eller deler av investert kapital.

Muligheten for at det ikke finnes noe aktivt handelsmarked for Verdipapirene: Verdipapirene vil være nye verdipapirer, og det er mulig at disse ikke vil bli vidt distribuert og/eller børsnoterte, og at de selv om de er børsnoterte, ikke nødvendigvis vil ha noe aktivt handelsmarked. Mangelen på et aktivt handelsmarked kan medføre redusert likviditet for Verdipapirene, med den følge at investoren kan komme til å måtte eie slike Verdipapirer frem til de innløses. Nordea har ingen forpliktelse til å kjøpe tilbake eller opprettholde et marked for noen Verdipapirer. Investorer bør være oppmerksomme på at annenhåndsmarkedet for Verdipapirene eller instrumenter av denne typen kan være illikvid som følge av, blant annet, forstyrrelser og volatilitet på de globale finansmarkedene som har fortsatt gjennom de seneste år. Investorer bør også være oppmerksomme på at inflasjon kan ha en negativ påvirkning på verdien til de relevante Verdipapirene (herunder, men ikke bare, hovedstolbeskyttede Verdipapirer), herunder hvor avkastningen på Verdipapirene er under nivået på den relevante inflasjonen.

Referanseaktivaenes utvikling: Innehaverens rett til avkastning og tilbakebetaling av hovedstolen for strukturerte Verdipapirer avhenger av kursutviklingen til et eller flere underliggende aktiva («Referanseaktiva») og av den relevante avkastningsstrukturen. Verdien til Verdipapirene påvirkes av verdien til Referanseaktivaene på bestemte tidspunkter i løpetiden til de relevante Verdipapirene, intensiteten i prissvingningene til Referanseaktivumet/-aktivaene, forventninger til fremtidig volatilitet, markedsrenten og forventede utbetalinger på Referanseaktivaene. Verdien av Verdipapirene

kan i løpet av levetiden fluktuere over eller under emisjonskursen. Fordi Verdipapirene har en «verste-i-kurven» mekanisme, vil Verdipapirene gi resultater som vil avhenge av kursutviklingen til et enkelt Referanseaktivum og kan være svært forskjellig fra kursutviklingen til kurven som helhet. En investering i Verdipapirer involverer, i tillegg til eksponering til Referanseaktivumet/-aktivaene, risikoen for at etterfølgende endringer i markedsrenten kan virke til skade for verdien av Verdipapirene.

Valutasvingninger: Valutakurser kan påvirkes av komplekse politiske og økonomiske faktorer, inkludert relative inflasjonsrater, rentenivåer, handelsbalansen mellom land, graden av overskudd eller underskudd på statsbudsjettet, samt penge-, skatte- og/eller handelspolitikken som føres av myndighetene i landene med de relevante valutaene. Valutasvingninger kan også på komplekse måter påvirke verdien eller nivået til Referanseaktivaene. Hvis slike valutasvingninger fører til svingninger i verdien eller nivået til Referanseaktivaene, kan verdien eller nivået til Verdipapirene falle. Hvis verdien eller nivået til en eller flere Referanseaktiva er denominert i en annen valuta enn Verdipapirene, kan investorene i Verdipapirene bli eksponert for økt valutarisiko. Historiske valutakurser gir ikke nødvendigvis en indikasjon på fremtidige valutakurser.

Risiko knyttet til markedsforstyrrelser og ekstraordinære hendelser: Referanseaktiva kan påvirkes av forstyrrelser i markedene hvor de til vanlig omsettes, eller slike ekstraordinære hendelser som for eksempel strykning fra børsnotering, nasjonalisering, konkurs, likvidasjon eller andre forhold som utvanner verdien til det relevante Referanseaktivumet. For alle strukturerte Verdipapirer kan det inntreffe hendelser slik som for eksempel lovendringer eller økte kostnader for risikostyring. I et slikt tilfelle kan Utstederen etter eget skjønn foreta justeringer i sammensetningen av aktiva og beregningen av avkastningen eller verdien til Verdipapirene eller erstatte et Referanseaktivum med et annet Referanseaktivum, alt ettersom Utstederen finner det nødvendig.

Aksjer som Referanseaktiva: Verdipapirene er ikke sponset eller promotert av aksjenes utsteder. Utstederen av aksjene har derfor ikke noen forpliktelse til å se hen til interessene til investorene i Verdipapirene og dermed kan handlingene til en slik aksjeutsteder påvirke Verdipapirens markedsverdi negativt. Investoren i Verdipapirene har ikke rett til å motta noe utbytte eller andre utbetalinger som en direkte innehaver av aksjene ellers ville ha hatt rett til.

4. Nøkkelopplysninger om det Offentlige Tilbudet av Verdipapirer og/eller opptaket til handel på et regulert marked

Hvilke vilkår og hvilken tidsplan vil gjelde dersom jeg investerer i dette Verdipapiret?

- (a) Et Offentlig Tilbud av Verdipapirene vil finne sted i Norge fra og med 3 juli 2023 og til og med 1 september 2023 («**Tilbudsperioden**»).

Emisjonskursen vil være 100 prosent.

Utstederen forbeholder seg retten til å kansellere tilbudet under de følgende omstendigheter;

- Hvis total pålydende verdi av Verdipapirene som er kjøpt på eller forut for 1 september 2023, er mindre enn NOK 15,000,000;
- Hvis kupongen ikke kan bli satt til minst 2,00 prosent; eller
- Hvis enhver hendelse av økonomisk, finansiell eller politisk natur inntreffer og kan sette i fare et vellykket tilbud, som bestemt av Utstederen.

- (b) Det vil bli søkt om opptak til notering og handel av Verdipapirene på Nasdaq Stockholm med virkning fra og med 26 september 2023.

- (c) I forbindelse med utstedelsen av denne type verdipapirer kan Utstederen på seg kostnader til, blant annet, produksjon, distribusjon, konsesjoner, børsnotering og risikostyring. For å dekke disse kostnadene, belaster Utstederen produksjonsgebyrer. Produksjonsgebyret reflekteres i prisen som skal betales til Utstederen av den relevante kjøper, distributør eller Autoriserte Tilbyder og vil maksimalt utgjøre 2,00 prosent (0,40 prosent per år), beregnet av prisen på Verdipapirene.

- (d) En distribusjonsgebyr på opp til 6 prosent (1,20 prosent per år) beregnet på grunnlag av prisen på Verdipapirene vil betales av Utstederen til Autorisert Tilbyder. Distribusjonsgebyret reflekteres i prisen som skal betales til Utstederen.

Hvem er Tilbyderen og/eller personen som anmoder om opptak til handel?

Tilbyderen av Verdipapirene og personen som anmoder om opptak til handel av Verdipapirene er Utstederen. Verdipapirene kan også bli tilbudt av Garantum Fondkommission Aktiebolag som Utstederen har utpekt som Autorisert Tilbyder av Verdipapirene.

Garantum Fondkommission Aktiebolag	Den Autoriserte Tilbyderen er stiftet og registrert under svensk	Aksjeselskap	Svensk lovgivning

Når en investor har til hensikt å erverve eller erverver Verdipapirer fra en Autorisert Tilbyder, eller når tilbud og salg av Verdipapirer gjøres fra en Autorisert Tilbyder til en investor, vil dette bli gjort i overensstemmelse med de vilkår og øvrige ordninger som gjelder i forholdet mellom den relevante Autoriserte Tilbyderen og investoren, blant annet hva gjelder pris, allokering og oppgjør.

Hvorfor utarbeides dette prospektsammendraget?

- (a) Tilbudet fremsettes for å skaffe kapital til Utstederen og for å tilby investorer en avkastning knyttet til Referanseaktivaenes kursutvikling. Nettoprovenyet fra utstedelsen av Verdipapirene vil bli brukt til Utstederens og Nordea-konsernets alminnelige bankformål og andre selskapsformål.
- (b) Det gis ingen fulltegningsgaranti for tilbudet av Verdipapirene.
- (c) I forbindelse med utstedelsen av Verdipapirene kan det bli betalt honorarer/gebyrer til Autoriserte Tilbydere og andre tredjepartsdistributører. Med forbehold om det foregående, og til Utsteders kunnskap, har ingen av de personene som er involvert i utstedelsen av Verdipapirene interesser av vesentlig betydning for tilbudet.
