In addition, certain other factors beyond the Barclays Bank Group's control, including escalation of global conflicts, acts of terrorism, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (ii) the impact of COVID-19; (iii) the impact of interest rate changes on the Barclays Bank Group's profitability; (iv) the competitive environments of the banking and financial services industry; (v) the regulatory change agenda and impact on business model; (vi) the impact of benchmark interest rate reforms on the Barclays Bank Group; and (vii) change delivery and execution risks.
- **Climate risk:** Climate risk is the impact on financial and operational risks arising from climate change through physical risks, risks associated with transitioning to a lower carbon economy and connected risks arising as a result of second order impacts of these two drivers on portfolios.
- **Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Barclays Bank Group. The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates for loans and advances due from borrowers and counterparties. Market risk is the risk of loss arising from potential adverse change in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the potential for adverse consequences from decisions based on incorrect or misused model outputs and reports.

- **Conduct, reputation and legal risks and legal, competition and regulatory matters:** Conduct risk is the risk of poor outcomes for, or harm to customers, clients and markets, arising from the delivery of the Barclays Bank Group's products and services. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and/or competence. The Barclays Bank Group conducts activities in a highly regulated global market which exposes it and its employees to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions and/or conflict, and may be unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet their respective obligations, including legal, regulatory or contractual requirements. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

In Q2 2023, the "Conduct Risk" principal risk was expanded to include "Laws, Rules and Regulations (LRR) Risk" and consequently renamed "Compliance Risk". Reflecting this, the definition of compliance risk is: "The risk of poor outcomes for, or harm to, customers, clients and markets, arising from the delivery of the firm's products and services (also known as "Conduct Risk") and the risk to Barclays Bank Group, its clients, customers or markets from a failure to comply with the laws, rules and regulations applicable to the firm (also known as Laws, Rules and Regulations Risk "LRR Risk")." The definition of the "Legal Risk" principal risk was updated to: "The risk of loss or imposition of penalties, damages or fines from the failure of the firm to meet applicable laws, rules and regulations or contractual requirements or to assert or defend its intellectual property rights." The revised framework is in force from June 2023."

KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

The Securities will be cleared and settled through *Verdipapirsentralen* ASA.

The issue date is 26 October 2023 (the "**Issue Date**"). Subject to early termination, the Securities are scheduled to redeem on 26 April 2029 (the "**Scheduled Settlement Date**").

Rights attached to the Securities

Potential return: The Securities will give each holder of Securities the right to receive potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities. The potential return will be in the form of: a Final Cash Settlement Amount, provided that if the Securities are early terminated, the potential return may be in the form of an Early Cash Settlement Amount instead.

Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 calendar days, or, in the case of interest has not been paid within 14 calendar days of the due date), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder.

Limitations on rights

Early redemption following certain disruption events or due to unlawfulness or impracticability: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, or if it determines that that an unlawfulness or impracticability event has occurred. In such case, investors will receive an "**Early Cash Settlement Amount**" equal to the fair market value of the Securities prior to their redemption.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).
- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, to postpone or obtain alternative valuation of the Underlying Asset(s) to postpone scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

Description of the calculation of potential return on the Securities

Underlying Assets: The return on and value of the Securities is dependent on the performance of the following Underlying Asset:

Underlying Asset_(Final Settlement)	Type	Initial Price	Averaging-in Dates
STOXX 600 Price Index	Index	The arithmetic average of the Valuation Price of such Underlying Asset on each of the Averaging-in Dates as determined by the Determination Agent.	6 October 2023, 6 November 2023, 6 December 2023 and 8 January 2024

For the purposes of determining the Final Cash Settlement Amount, Underlying Asset shall mean the Underlying Asset_(Final Settlement).

Calculation Amount: Calculations in respect of amounts payable under the Securities are made by reference to the "**Calculation Amount**", being NOK 10,000 per Security.

Indicative amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or indicative amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

Determination Agent: Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

A – Final Settlement

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount.

The Scheduled Settlement Date may be postponed following the postponement of the Final Valuation Date due to a disruption event.

The Final Cash Settlement Amount is calculated as follows as the sum of:

- (i) the Protection Level (being 100%) multiplied by the Calculation Amount;

PLUS

- (ii) if:
- (a) the Final Performance is greater than or equal to the Upper Strike Percentage (being 100%), an amount equal to the product of the Calculation Amount and the greater of (I) the Floor (being 0%) and (II) the Participation_(Settlement) (being, indicatively, 180%, provided the Participation_(Settlement) will not be less than 150%) multiplied by the amount equal to the Final Performance minus the Upper Strike Percentage (being 100%); or
- (b) otherwise, zero.

"**Final Performance**" means the Final Valuation Price divided by the Initial Price_(Settlement) of the Underlying Asset.

"**Final Valuation Date**" means 6 April 2029 subject to adjustment.

"**Final Valuation Price**" means, in respect of an Underlying Asset, the arithmetic average of the closing level of the Underlying Asset in respect of each of 6 April 2028, 8 May 2028, 6 June 2028, 6 July 2028, 7 August 2028, 6 September 2028, 6 October 2028, 6 November 2028, 6 December 2028, 8 January 2029, 6 February 2029, 6 March 2029 and, 6 April 2029.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of NASDAQ Stockholm.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** The terms of the Securities do not provide for a scheduled minimum payment at maturity and as such, depending on the performance of the Underlying Asset(s), you may lose some or all of your investment. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption. The Issuer may withdraw the public offer at any time. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

You are subject to risks associated with the determination of amount payable under the Securities: The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.

The amount payable on your Securities will be calculated based on an initial price and final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified averaging dates, rather than on one initial valuation date or final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically changes on one or more of the averaging dates, the amount payable on your Securities may be significantly less than it would have been if the amount payable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

The Securities reference a basket of Underlying Assets, each of which demonstrates unique risk characteristics. If the Underlying Assets are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction. If the performance of a basket gives a greater 'weight' to a basket constituent as compared to other basket constituents, the basket performance will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent. The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.

Your Securities are subject to adjustments and early redemption: Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the price of the Underlying Assets, substituting the Underlying Assets, and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that an unlawfulness or impracticability event has occurred, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.

- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.
- **The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended):** Pursuant to the EU Benchmarks Regulation, an Underlying Asset may not be used in certain ways by an EU supervised entity after 31 December 2023 if its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If this happens, a disruption event will occur and the Securities may be early redeemed. Further, the methodology or other terms of an Underlying Asset could be changed in order to comply with the requirements of the EU Benchmarks Regulation, and such changes could reduce or increase the level or affect the volatility of the published level of such Underlying Asset, which may in turn lead to adjustments to the terms of the Securities or early redemption.

- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.
- **Potential conflicts of interest:** Conflicts of interest may exist where Barclays Bank PLC or its affiliate: (i) acts in multiple capacities with respect to the Securities (e.g. acting as issuer, manager and determination agent); (ii) enters into hedging transactions to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due; and (iii) uses price contributions from its trading desks as a pricing source for an Underlying Asset. In light of such conflicts, the actions taken or determinations made by Barclays Bank PLC in relation to the Securities may not always be in the best interest of the holders. In addition to hedging transactions, Barclays Bank PLC may trade on the Underlying Asset(s) in the ordinary course of its business. Such trading could affect the market price of the Underlying Asset(s), which may in turn materially adversely affect the value and return on your Securities.

Barclays Bank-konsernet driver virksomhet i et høyst regulert globalt marked som utsetter Konsernet og dets ansatte for juridisk risiko som følge av (i) de mange lovene og forskriftene som gjelder for virksomhetene det driver, som er svært dynamiske, kan variere fra jurisdiksjon til jurisdiksjon og/eller være i motstrid med hverandre, og som kan være uklare i sin anvendelse på bestemte forhold, særlig innen nye og fremvoksende områder, og (ii) Barclays Bank-konsernets virksomheters og forretningspraksis' diversifiserte og dynamiske karakter. I hvert tilfelle utsetter dette Barclays Bank-konsernet og dets ansatte for risiko for tap eller ileggelse av sanksjoner, erstatningsansvar eller bøter som følge av at medlemmer av Barclays Bank-konsernet ikke oppfyller sine respektive juridiske forpliktelser, herunder rettslige, regulatoriske eller kontraktsfestede krav. Juridisk risiko kan oppstå i forbindelse med hvilke som helst av de vesentlige eksisterende og fremvoksende risikoene som er oppsummert ovenfor.

I Q2 2023 ble hovedrisikoen "Conduct Risk" utvidet til å omfatte "Laws, Rules and Regulations (LRR) Risk" og dermed omdøpt til "Compliance Risk". Som gjenspeiling av dette er definisjonen "definisjonen av compliance risk: "Risikoen for dårlige utfall for, eller skade på, kunder, klienter og markeder, som følge av levering av firmaets produkter og tjenester (også kjent som "Conduct Risk") og risikoen for Barclays Bank Group, dets kunder, kunder eller markeder fra manglende overholdelse av lover, regler og forskrifter som gjelder for firmaet (også kjent som Laws, Rules and Regulations Risk "LRR-risiko)"."Definisjonen av hovedrisikoen "juridisk risiko" ble oppdatert til: "Risikoen for tap eller ileggelse av straffer, skader eller bøter som følge av at firmaet ikke oppfyller gjeldende lover, regler og forskrifter eller kontraktskrav eller hevder eller forsvarer sine immaterielle rettigheter." Det reviderte rammeverket trer i kraft fra juni 2023."

Dersom slikt tilbakehold eller fradrag er påkrevd ved lov vil Utsteder, bortsett fra under begrensede omstendigheter, bli pålagt å betale ytterligere beløp for å dekke beløpene som er holdt tilbake eller trukket fra.

Begrensninger i rettigheter

Tidlig innløsning etter visse forstyrrelshendelser eller på grunn av ulovlighet eller umulighet: Utsteder kan innløse Verdipapirene før Planlagt Oppgjørsdato etter at det har inntruffet visse forstyrrelshendelser eller ekstraordinære hendelser som gjelder Utsteder, dens sikringsordninger, Underliggende Eiendel(er), beskatning eller Verdipapires relevante valuta, eller hvis den fastslår at en ulovlig eller umuliggjørende hendelse har inntruffet. I slike tilfeller vil investorene motta et "**Tidlig Kontantoppgjørsbeløp**" lik Verdipapires markedsverdi før innløsningen..

Visse ytterligere begrensninger:

- Til tross for at Verdipapirene er knyttet til Underliggende Eiendel(er)s resultater har eierne ingen rettigheter med hensyn til Underliggende Eiendel(er).
- Verdipapires vilkår innebærer at Utsteder og Fastsettelsesagent (alt etter omstendighetene), ved inntreden av visse hendelser og under visse omstendigheter, og uten eiernes samtykke, kan foreta justeringer i Verdipapires vilkår, innløse Verdipapirene før forfall, monetisere Verdipapirene, utsette eller få alternativ verdsettelsen av Underliggende Eiendel(er) for å utsette planlagte betalinger i henhold til Verdipapirene, endre Verdipapires pålydende valuta, endre Underliggende Eiendel(er), endre Utsteder til en annen tillatt enhet på visse vilkår, og iverksette visse andre tiltak med hensyn til Verdipapirene og Underliggende Eiendel(er).

- Verdipapirene inneholder bestemmelser om å innkalle til møter for eiere for å behandle saker som berører deres interesser generelt, og disse bestemmelsene tillater definerte flertall å binde alle eiere, inkludert eiere som ikke deltok og stemte på det aktuelle møtet og eiere som stemte på en annen måte enn flertallet.

Lovvalg

Verdipapirene vil være underlagt engelsk rett, og rettighetene i henhold til disse vil bli tolket i samsvar med dette.

Beskrivelse av beregningen av potensiell avkastning på Verdipapirene

Underliggende Eiendeler: Verdipapirenes avkastning og verdi er avhengig av følgende Underliggende Eiendeler resultater:

Underliggende Eiendel <small>(Endelig Oppgjør)</small>	Type	Inngangskurs	Gjennomsnittsberegningsdato
STOXX 600 Price Index	Index	Det aritmetiske gjennomsnittet av vedkommende Underliggende Eiendels Verdsettelseskurs på hver Gjennomsnittsberegningsdato som fastsatt av Fastsettelsesagent.	6. oktober 2023, 6. november 2023, 6. desember 2023 og 8. januar 2024

Ved fastsettelse av Endelig Kontantoppgjørsbeløp skal Underliggende Eiendel bety Underliggende Eiendel (Endelig Oppgjør).

Beregningsbeløp: Beregninger med hensyn til beløp som skal betales i henhold til Verdipapirene foretas med referanse til "**Beregningsbeløp**", som er NOK 10 000 per Verdipapir.

Veiledende beløp: Hvis Verdipapirene tilbys gjennom et Offentlig Tilbud og eventuelle spesifiserte produktverdier ikke er fastsatt eller bestemt når Offentlig Tilbud påbegynnes (herunder beløp, nivå, prosentandel, pris, kurs eller annen verdi i forhold til Verdipapirenes vilkår som ikke er fastsatt eller bestemt når Offentlig Tilbud påbegynnes), vil disse spesifiserte produktverdiene angi et veiledende beløp, veiledende minstebeløp, veiledende maksimalbeløp eller en kombinasjon av slike. I så tilfelle skal de(n) relevante spesifiserte produktverdien(e) være verdien fastsatt av Utsteder på grunnlag av markedsforholdene på eller rundt Offentlig Tilbuds avslutning. Melding om den relevante spesifiserte produktverdien vil bli offentliggjort før Emisjonsdato.

Fastsettelsesagent: Barclays Bank PLC vil bli oppnevnt til å foreta beregninger og fastsettelser med hensyn til Verdipapirene.

A - Endelig Oppgjør

Dersom Verdipapirene ikke er innløst på annen måte vil hvert Verdipapir bli innløst på Planlagt Oppgjørsdato ved betaling av Endelig Kontantoppgjørsbeløp.

Planlagt Oppgjørsdato kan bli utsatt etter utsettelse av Endelig Verdsettelsesdato på grunn av en forstyrrelshendelse.

Endelig Kontantoppgjørsbeløp beregnes som følger, som summen av:

- (i) Beskyttelsesnivå (som er 100 %) multiplisert med Beregningsbeløp,

PLUSS

- (ii) hvis:

- (a) Endelig Resultat er større enn eller lik Øvre Innløsningsprosent (som er 100 %), et beløp som er lik produktet av Beregningsbeløp og det høyeste av (I) Bunnivå (som er 0 %) og (II) Deltakelse (Oppgjør) (som veiledende er 180 %, forutsatt at Deltakelse (Oppgjør) ikke vil være lavere enn 150 %) multiplisert med beløpet som er lik Endelig Resultat minus Øvre Innløsningsprosent (som er 100 %), eller

- (b) ellers null.

"**Endelig Resultat**" betyr Endelig Verdsettelseskurs dividert med Opprinnelig Kurs (Oppgjør).

"**Endelig Verdsettelsesdato**" betyr 6. april 2029, med forbehold om justering.

"**Endelig Verdsettelseskurs**" betyr, med hensyn til en Underliggende Eiendel, det aritmetiske gjennomsnittet av Underliggende Eiendels sluttkurs på hver av følgende datoer: 6. april 2028, 8. mai 2028, 6. juni 2028, 6. juli 2028, 7. august 2028, 6. september 2028, 6. oktober 2028, 6. november 2028, 6. desember 2028, 8. januar 2029, 6. februar 2029, 6. mars 2029 and, 6. april 2029.

Verdipapirenes status

Verdipapirene er direkte, ikke-ansvarlige og usikrede forpliktelser for Utsteder og har lik innbyrdes prioritet.

Beskrivelse av begrensninger i Verdipapirenes frie omsettelighet

Verdipapirene tilbys og selges utenfor USA til ikke-amerikanske personer i henhold til Regulation S under den amerikanske Securities Act og må etterleve overdragelsesrestriksjoner med hensyn til USA. Verdipapirer som inngår i et clearingsystem vil bli overdratt i henhold til dette clearingsystemets regler, rutiner og bestemmelser. Med disse forbehold vil Verdipapirene være fritt omsettelige.

Hvor vil Verdipapirene omsettes?

Det forventes at søknad vil bli inngitt av Utsteder (eller på vegne av Utsteder) om notering av Verdipapirene på det regulerte markedet NASDAQ Stockholm.

Hva er de viktigste risikoene som er spesifikke for Verdipapirene?

Verdipapirene er utsatt for følgende viktige risikoer:

- **Du kan tape deler av eller hele investeringen i Verdipapirene:** Verdipapirenes vilkår fastsetter ikke noen planlagt minsteutbetaling ved forfall, og følgelig kan du, avhengig av resultatene til Underliggende Eiendel(er), tape deler av eller hele investeringen. Du kan også tape deler av eller hele investeringen dersom: (a) du selger Verdipapirene dine før deres planlagte forfall eller utløp, (b) Verdipapirene dine innløses tidlig under visse ekstraordinære omstendigheter, eller (c) Verdipapirenes vilkår justeres slik at beløpet som skal betales eller eiendelene som kan leveres til deg er mindre enn din opprinnelige investering.
- **Det er risikoer forbundet med Verdipapirenes verdsettelse, likviditet og tilbud:** Dine Verdipapirers markedsverdi kan være lavere enn emisjonskursen siden emisjonskursen kan ta hensyn til Utstедers og/eller distributørens fortjenestemargin og kostnader i tillegg til Verdipapirenes markedsverdi. Dine Verdipapirers markedsverdi kan påvirkes av Underliggende Eiendel(er)s volatilitet, nivå, verdi eller kurs på det aktuelle tidspunktet, renteendringer, Utstедers finansielle stilling og kredittvurdering, tilbud og etterspørsel etter Verdipapirene, gjenstående tid til Verdipapirenes forfall eller utløp, samt andre faktorer. Kursen, om noen, som du vil kunne selge Verdipapirene til før forfall kan være vesentlig lavere enn beløpet du opprinnelig investerte. Det er ikke nødvendigvis noe aktivt omsetningsmarked for Verdipapirene, og Utsteder er ikke nødvendigvis forpliktet til å stille kurser eller kjøpe tilbake Verdipapirene før innløsning. Utsteder kan når som helst trekke tilbake offentlig tilbud. I slike tilfeller vil du, dersom du allerede har betalt eller levert tegningsbeløp for de relevante Verdipapirene, ha rett til tilbakebetaling av slike beløp, men vil ikke motta noen godtgjørelse som måtte ha påløpt i perioden mellom betaling eller levering av tegningsbeløp og tilbakebetaling for Verdipapirene.
- **Du er gjenstand for risiko knyttet til fastsettelsen av beløpet som skal betales i henhold til Verdipapirene:** Beregningen av beløpet som skal betales avhenger av at Underliggende Eiendel(er)s nivå, verdi eller kurs når eller krysser en "terskel" i løpet av en spesifisert periode eller på spesifiserte datoer i Verdipapirenes løpetid. Dette betyr at du kan motta mindre (eller, i visse tilfeller, mer) dersom Underliggende Eiendel(er)s nivå, verdi eller kurs henholdsvis krysser eller når en terskel, enn hvis den kommer nær terskelen, men ikke henholdsvis når eller krysser denne, og i visse tilfeller vil du ikke nødvendigvis motta noen rentebetalinger og/eller kan du tape deler av eller hele investeringen. Beløpet som skal betales for Verdipapirene dine vil bli beregnet på grunnlag av en startkurs og sluttkurs som er det aritmetiske gjennomsnittet av Underliggende Eiendel(er)s gjeldende nivåer, kurser eller andre gjeldende verdier på de angitte gjennomsnittsberegningsdatoene, i stedet for på én opprinnelig verdsettelsesdato eller endelig verdsettelsesdato. Dette innebærer at dersom Underliggende Eiendel(er)s gjeldende nivå, kurs eller verdi endres dramatisk på en eller flere av gjennomsnittsberegningsdatoene kan beløpet som skal betales på Verdipapirene dine være betydelig mindre enn det ville ha vært dersom beløpet som skulle betales hadde blitt beregnet med henvisning til en enkelt verdi innhentet på en opprinnelig verdsettelsesdato eller endelig verdsettelsesdato. Verdipapirene gjenspeiler en kurv av Underliggende Eiendeler, som hver har unike risikoegenskaper. Dersom Underliggende Eiendeler er korrelert kan det forventes at kurvens Underliggende Eiendel(er)s resultater vil bevege seg i samme retning. Dersom en kurvs resultater gir mer "vekt" til en kurvkomponent enn til andre kurvkomponenter vil kurvens resultat bli mer påvirket av endringer i verdien av vedkommende kurvkomponent enn i en kurv som gir hver kurvkomponent lik vekt. Kurvkomponentenes resultater kan modereres eller utlignes av hverandre. Dette innebærer at selv om en eller flere komponenter gir positivt resultat kan kurvens resultat som helhet være negativt dersom de øvrige komponentenes resultat er negativt i større grad.
- **Verdipapirene dine kan bli gjenstand for justeringer og førtidig innløsning:** I henhold til Verdipapirenes vilkår kan Fastsettelsesagent eller Utsteder, etter at det har oppstått visse forstyrrelseshendelser eller ekstraordinære hendelser vedrørende Utsteder, dens sikringsordninger, Underliggende Eiendel(er), beskatning eller Verdipapirenes relevante valuta, iverksette en rekke avhjelpende tiltak, herunder estimering av Underliggende Eiendeler kurs, utskiftning av Underliggende Eiendeler og justering av Verdipapirenes vilkår. Ethvert slikt avhjelpende tiltak kan endre Verdipapirenes økonomiske egenskaper og ha en vesentlig negativ virkning på Verdipapirenes verdi og avkastning. Hvis ingen avhjelpende tiltak kan iverksettes, eller hvis det fastslås at en ulovlig eller umuliggjørende hendelse har inntruffet, kan Utsteder innløse Verdipapirene førtidig ved å betale et Tidlig Kontantoppgjørsbeløp. Dersom tidlig innløsning finner sted kan du tape deler av eller hele investeringen fordi Tidlig Kontantoppgjørsbeløp kan være lavere enn kursen du kjøpte Verdipapirene til, eller til og med være null. Du vil også tape muligheten til å ta del i eventuelle påfølgende positive resultater i Underliggende Eiendel(er) og vil ikke kunne realisere eventuelle økninger i Verdipapirenes verdi. Du vil ikke nødvendigvis kunne reinvestere provenyet fra en investering til en sammenlignbar avkastning og/eller med en sammenlignbar rente, med et tilsvarende risikonivå.
- **Oppgjør er underlagt betingelser og kan under visse omstendigheter være umulig:** Utbetaling av beløpet som skal betales til deg vil ikke finne sted før alle oppgjørsbetingelser er oppfylt i sin helhet. Utsteder vil ikke utbetale noe ytterligere beløp til deg som følge av eventuelle forsinkelser eller utsettelse dette måtte innebære. Det kan oppstå visse oppgjørsforstyrrelseshendelser som kan begrense Utstедers evne til å foreta utbetalinger, og oppgjørsdato kan følgelig bli forsinket.
- **Risiko knyttet til underliggende aktiva(er) som er aksjeindekser:** Aksjeindekser er sammensatt av en syntetisk portefølje av aksjer og gir muligheter til å diversifisere investeringene, men vil være utsatt for risiko for svingninger i både aksjekurser og verdien og volatiliteten til den relevante aksjeindeksen. Verdipapirene er knyttet til aksjeindekser, og kan derfor ikke delta i utbytte eller andre utdelinger på aksjene som utgjør slike indekser. Følgelig kan du få en lavere avkastning på verdipapirene enn du ville ha mottatt hvis du hadde investert direkte i disse aksjene. Indeks sponsoren kan etter eget skjønn legge til, slette eller erstatte komponentene i en aksjeindeks, og kan også endre metoden som brukes for å beregne nivået på indeksen. Disse hendelsene kan ha en skadelig innvirkning på nivået på indeksen, noe som igjen kan ha en negativ innvirkning på verdien av og avkastningen på verdipapirene.
- **De underliggende eiendelene er "referanseindekser" i henhold til EUs benchmarks-forordning (forordning (EU) 2016/1011, med endringer):** I henhold til EU-referanseforskriften kan en underliggende eiendel ikke brukes på bestemte måter av en EU-overvåket enhet etter 31. desember 2023 hvis administratoren ikke oppnår autorisasjon eller registrering (eller, hvis en ikke-EU-enhet, ikke oppfyller vilkårene for

“ekvivalens” og ikke er “anerkjent” i påvente av en ekvivalensbeslutning eller ikke er “godkjent” av en EU-overvåket enhet). Hvis dette skjer, vil det oppstå en forstyrrelshendelse, og verdipapirene kan innløses tidlig. Videre kan metodikken eller andre vilkår for en underliggende eiendel endres for å overholde kravene i EUs referanseforordning, og slike endringer kan redusere eller øke nivået eller påvirke volatiliteten til det publiserte nivået på en slik underliggende eiendel, noe som igjen kan føre til justeringer av vilkårene for verdipapirene eller tidlig innløsning.

- **Beskatningsrisiko:** Nivået og grunnlaget for beskatning av Verdipapirene og eventuelle fritak fra slik beskatning vil avhenge av dine individuelle omstendigheter og kan endres når som helst i løpet av Verdipapirens løpetid. Dette kan ha negative konsekvenser for deg, og du bør derfor rådføre deg med dine egne skatterådgivere om de skattemessige konsekvensene for deg av transaksjoner som involverer Verdipapirene.
- **Potensielle interessekonflikter:** Det kan foreligge interessekonflikter der Barclays Bank PLC eller dens nærstående: (i) opptrer i flere roller med hensyn til Verdipapirene (f.eks. som utsteder, tilrettelegger og fastsettelsesagent), (ii) inngår sikringstransaksjoner for å dekke Utsteders eksponering mot de relevante kontantbeløpene som skal betales eller eiendelene som skal leveres i henhold til Verdipapirene når disse forfaller, og (iii) bruker prisbidrag fra sine meglerbord som en prisingskilde for en Underliggende Eiendel. I lys av slike konflikter vil ikke nødvendigvis handlingene eller fastsettelsene foretatt av Barclays Bank PLC i tilknytning til Verdipapirene alltid være i eiernes beste interesse. I tillegg til sikringstransaksjoner vil Barclays Bank PLC kunne handle i Underliggende Eiendel(er) som ledd i sin ordinære virksomhet. Slik handel kan påvirke Underliggende Eiendel(er)s markedslurs, hvilket igjen kan ha vesentlig negativ innvirkning på dine Verdipapirers verdi og avkastning.
